**Year to Year  
Not Just Another Story**

So the craziest girl I know &  
the wildest girl. And the girl who is  
always trying to make me do wrong  
things. But I stood up for my rights  
and I did what I thought was right.  
And Joanne I hope you graduate with  
me & Elena. Cause I'll feel real  
bad if you don't. Even though Miss  
Hall thinks you don't deserve too. So does  
Mr Johnson. But me & Rudy think if  
you real try you can do. So please try  
Will can you believe the school year is  
actually over and it seems like I barely  
enrolled in this wonderful school. I hope  
we don't have a class together actually.  
Cause then it be a whole Hell of a  
lot easier going to my classes. (sorry) But that's  
the way I feel. And it will be easier pass-  
ing them. And please try and settle down.  
And maybe I will get in your Mercedes?  
But other wise Hell no. Unless someone  
else drives. And do seniors I will Rule the  
school. And tell all those freshman who's  
the boss. And about your so called cousin  
Robert. You better tell him who's boss too. Or  
they will take advantage of your kindness.  
But I don't really ~~worry~~ don't worry about you.  
Cause I know you can certainly take good care  
of yourself. & even others. So you did actually go  
to the prom. me & Elena didn't actually believe you  
you but now I do. Since I did get a picture  
will I have to say-good-bye sometime. I guess  
it might as well be now!!!

P.S See you Friends

later Chuck Gloria Torres

Hey, Joanne, well it was nice getting to know  
 ya better, hope we continue to be friends and  
 hope you continue to roll in the sand! ha  
 with who ever you want to roll with!  
 Well your crazy and fun to get along with  
 dont ever change! Hope next year we have  
 some classes together so you can make us  
 all laugh and so we can get into trouble too!  
 Well Joanne later! See ya around.  
 Take Care and be good and try  
 not to get into any trouble O.K

Joanne,  
 well I hope you had a great year. You've been  
 a cool friend to me. You're a crazy & funny  
 chick. Take my advice on this: I don't have more  
 than one boyfriend at a time because your  
 gonna get in trouble. Well I'll be there to  
 see you in the summer and for the years  
 to come. I don't go to the Venice beach too  
 much because you'd look like a real

# Hot Times at BPHS

**"I**s it ever hot!" "I can't believe how hot it is!"

These were just some of the comments heard around the Baldwin Park High School campus during the first days of school for the 1984-85 school year. The classes were extremely hot, some with temperatures higher inside than they were outside.

This past September was the hottest in over nearly thirty years. Temperatures were as high as one hundred eighteen degrees during the hottest days. It seemed as though there would be no

relief.

Despite the heat the students at BPHS had a good start, most being anxious to see old friends again and meet new ones.

There was mixed reactions to the news that a swimming pool was to be built at the high school. Some students felt that air conditioning should be put in the classrooms before the swimming pool was put in. However, most students and teachers survived the heat wave, once again proving that those at BPHS can handle anything.

# Starting Over

**O**ur first days at BPHS were the busiest ones. For some of us it was really hard starting over, but we did it. The tasks we have accomplished this year have given us much satisfaction.

Many changes in our administration, with a new Principal, Mr. Prantalos, Assistant Principal, Mrs. Wiggins, Career Counselor, Mrs. Garcia, and Counselor,

Mr. Cragin were much help to us.

Even though we were all busy, we still had time for those good ol' football games and rallies, with everyone contributing their spirit and enthusiasm.

The school year of 1984-85 is over. For some, we will come back next year, for others it's time to move on.

# Crazy Seniors

*Richard  
Arreola*

Being a senior is one of the happiest and saddest times of our lives. We were almost "adults" — almost ready to challenge an exciting new world on our own. So much of our lives lay ahead of us, and we had the encouragement, help, and love of family and friends. We were young, and we enjoyed life as only the young can. We did crazy

things like "party hardy" the night before the big test, or drag race in the student parking lot after school, or run, screaming, through the halls with our friends.

We enjoyed everything that high school had to offer. We became involved in sports, joined clubs, went to football games and dances. In short we were just crazy seniors.

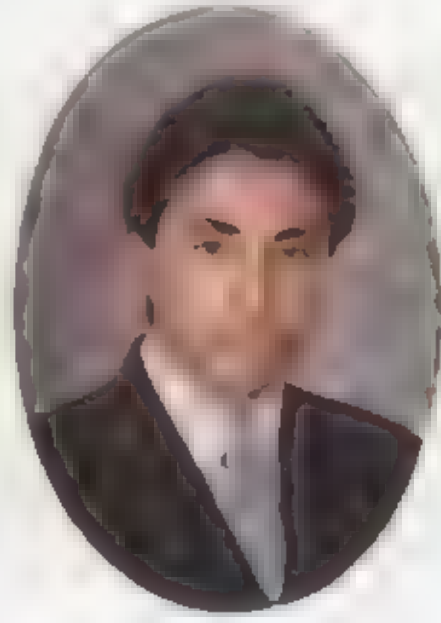

Yet it was also sad and depressing at times. Sometimes facing that big new world got a little scary. We were unsure about being able to make it. We realized graduating meant leaving that cozy little world of Baldwin Park High School. But there will always be a part of us here . . . and a part of here . . . in us.

# Just the Beginning

**A**s we started our high school years, a lot of us were apprehensive and fearful of this new world. One of those fears was that of not knowing anyone and having to make new friends.

As we faced each new day we found that we were not alone with our feelings. Each day brought us closer to these new faces we did not know, and before long, friendships

began to develop.

Before we knew it some of our new friends became good friends, and then best friends. We shared special moments and thoughts, had a few disagreements, but always made up, and came to that final year when we knew the end possibly meant parting ways for long periods of time.

As those final days approached, we made pro-

mises to keep in touch, no matter what, even though deep down we knew we might not.

Special friends are forever, and now that we are parting we will keep in touch, by whatever means, drawn together by those special moments we shared during those very special years at Baldwin Park High School.

# Special Someone

Throughout our high school years we always had someone special to turn to. No matter who that someone was, a friend, teacher, or administrator, they always seemed to be there when we needed them.

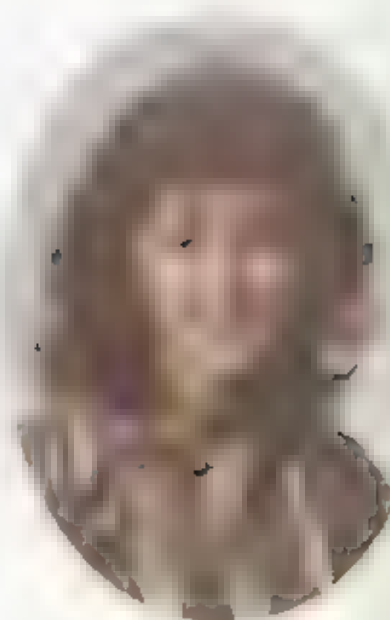

High school years are very special to most of us. It is a time of growing and

learning, changing, and maturing, each in our own special way. These years are made easier by those special friends in our life who help us over the rough spots, pick us up when we're down, and share our special moments.

Now that our school years are over, who will we depend on? Those special

friends may not always be with us. As adults we will learn to cope with our new lifestyles. Along with this comes new friends and new support, and a chance for us to lend support to those who need us as much as we need them.

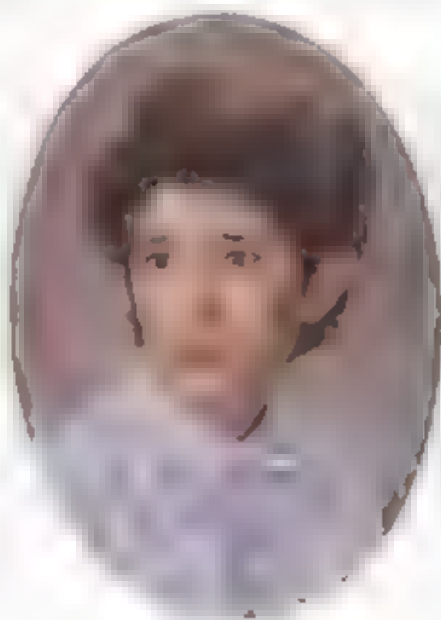

Good luck Class of 1985!

## Our Special Teachers

*Mary  
Munoz*

**T**eachers have always been a part of our educational life, and will now be a part of our memories. As we progressed through our school years we developed feelings toward many of our teachers.

During our high school years, we were exposed to more teachers than any other time. We had some we felt were good, some not so-good, and some who were very special. Those that were special will be the

ones we will remember the longest, with the fondest memories.

Our teachers helped us to understand what life is all about; for many of us they were like another mom or dad away from home. They had a job to do — to teach us English, Math, Social Studies, Shop, Homemaking, Business — and they did it well, but they also taught us something about ourselves, helping us along a

difficult path, preparing us for a life of our own.

Teachers come into our lives from various backgrounds and lifestyles. From this variety we are exposed to many different and interesting outlooks on life.

Because of this experience our lives after our senior year will be better. For this the Senior Class of 1985 says, "Thank-you."

# Last of the Real Braves

**W**e the seniors of 1985 will be the last of the real Braves. The last four years have been the most memorable times of our school days. We have met new people and teachers, and have matured in many ways.

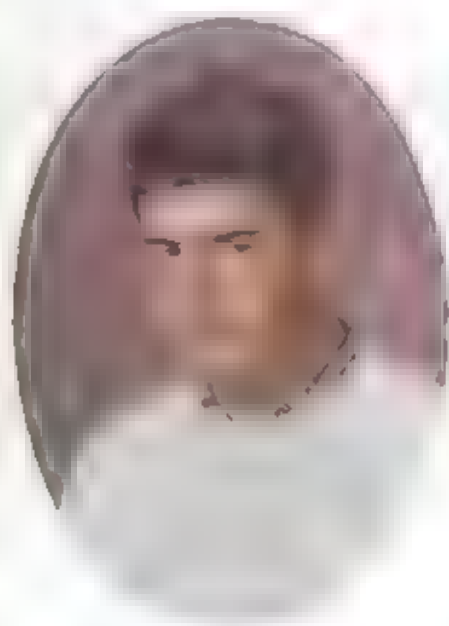

Our senior year was when everyone grew a lot closer to one another because we realized that it would be our last year together as a class. We leave behind many special memories, friends, teachers, activities, and

sporting events.

In years to come when we think of our high school years we will be more than proud to say we graduated from Baldwin Park High School, the home of the BRAVES!!

## Our Final Goal

**G**raduation — the award of an academic degree. The diploma — our main goal throughout our school years. For the class of 1985, graduation has come much too soon; we must now go our separate ways. We can no longer play the game of life, we must now start living it.

Throughout our senior year we considered life more seriously, looking

past graduation to what might lay down life's road.

We had many enjoyable moments during this final year, participating as never before in school activities, classes, and other social functions.

We were not always able to express our true feelings about school, after all we were the "big, bad Seniors." Deep down we will always have special feelings toward BPHS.

The pleasures and great moments we had at Baldwin Park High School will never be forgotten. Along with our friends, teachers, and special moments, BPHS will always be a part of our youth that we will not forget.

After four long, but enjoyable years, we can finally say we have achieved **o u r g o a l — GRADUATION!!!**

# Dreams

**D**reams; just about the whole Junior class had them. These dreams were to go to the prom, get good grades, and get involved in school activities.

The prom was the biggest event of the school year for most juniors and therefore became the biggest and most important dream of all. Juniors dreamt about going to the prom with that special person, the one they have dreamt about since the first day of school; that person that somehow always made them smile. Hopes arose as prom time approached, anxiety increased, and that special person popped the question or said yes as the

dream was fulfilled.

The second dream of many Juniors was to get good grades. The third year brought more work and the teachers became more strict, or so it seemed. It seemed twice as hard to get good grades. The juniors had to be more responsible to prove to the teachers that they were mature enough to handle all the work.

The final dream actually began in the freshman year. This dream was to get involved in school activities.

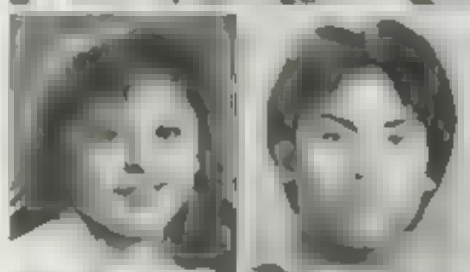

Dreams are different, but they always add up to the same result — THE JUNIOR YEAR.

## Junior Realities

The Junior year was a combination of many things. Excitement, learning, and maturity were but three of the experiences that most students shared during their Junior year.

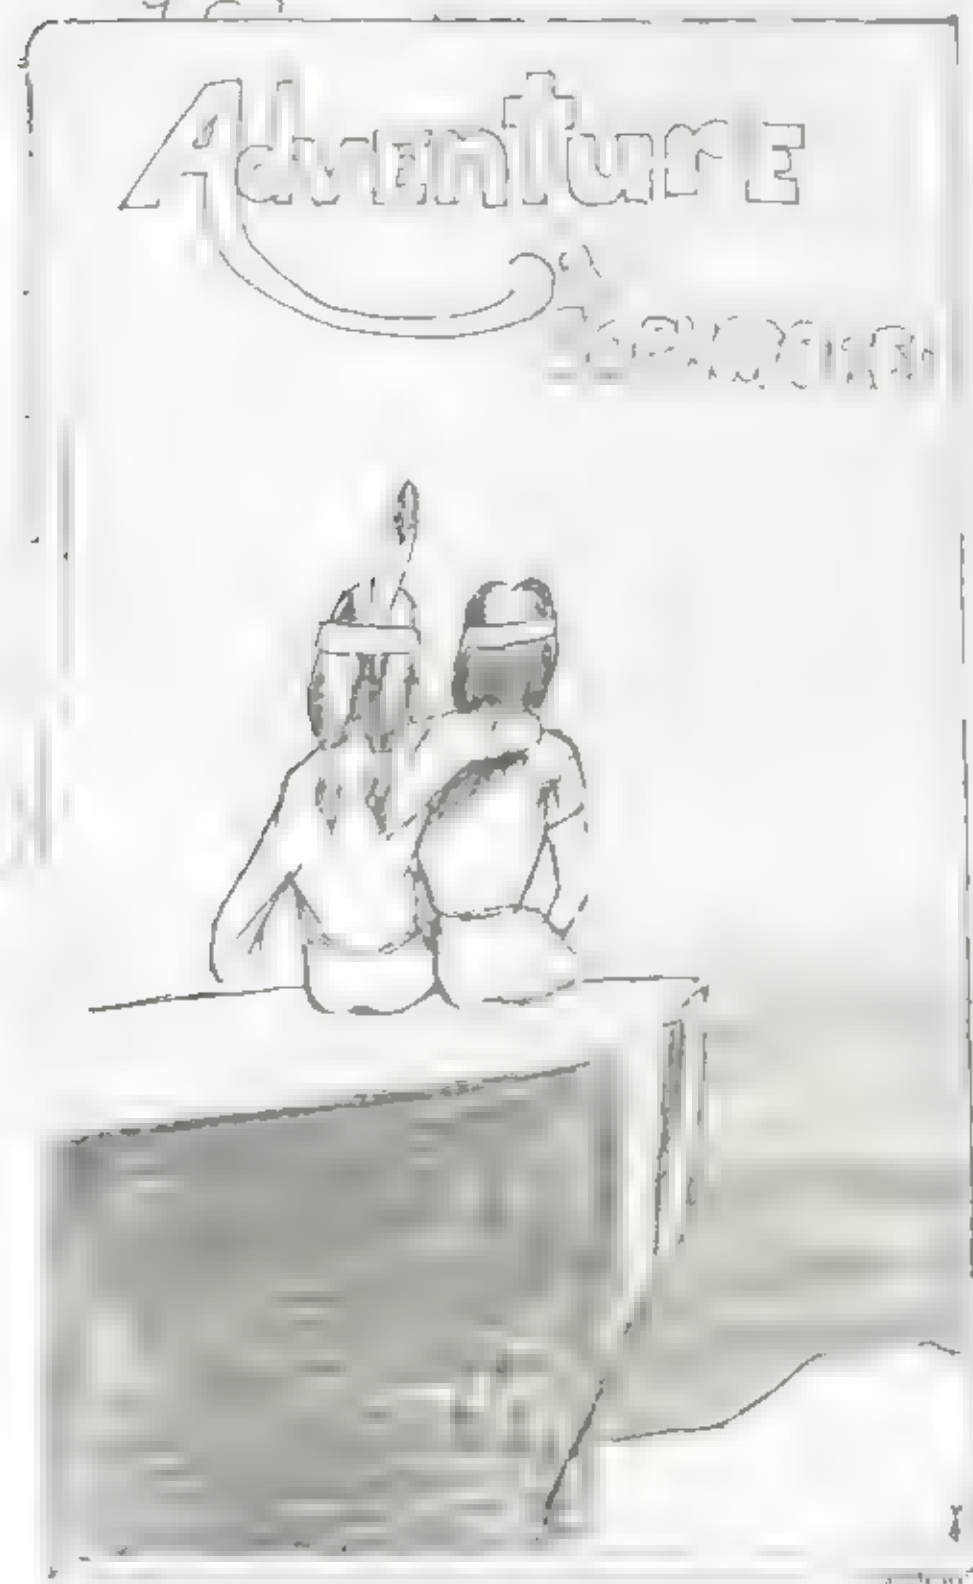

Excitement was something that went on throughout the year. Knowing that the halfway point had been crossed, the anticipation of the Junior-Senior Prom, class rings and, finally, the end of the year added to the excitement of the third year. There is but one year left, and now the worrying stops. Juniors had no more worry about being selected for anything.

Learning and maturity come together. This was the year they really

became aware of their surroundings, the time when they started to make decisions on their own, realizing it was time to act. Now is when the future starts and learning how to do it is a major part of the Junior year.

In the mean time, while all this learning was going on, maturity occurred. Once they learned to do everything they had to do, they had to be mature enough to go through with it. This was the kind of maturity which was needed to really grow up and step into the world outside of school, the world where everyone fend for themselves, where decisions are made, many times alone.

# Adventurous Sophomores

Sophomores were very adventurous in '84-'85. Gaining spirit this year, they proved their true identity and were recognized for this. Though they were still learning the in's and out's of school life, they didn't let their inexperience slow them down. They became a part of the school scene, demonstrating their spirit and willingness to participate in activities throughout the school.

In sports they proved their

worth by giving the school records to be proud of; in academics they increased their proficiency levels, helping the school attain higher standards than before; and in service to the school and others they became aware and helpful.

The class of 1987 will be remembered for years to come, but their sophomore year will be the one to look back on, for it was 1984-85 when it really began.

# Spirit of '87

As this, the sophomore year ends, those in the Class of '87 will recall the special moments of their second year. With only two years to go the trip is now downhill, but the toughest times and the most rewarding times are still ahead.

The Class of '87 has proven itself in many areas of academic and athletic com-

petition. But it has also proven itself in spirit and poise of school life; they belong.

The end of the Sophomore year and the beginning of the Junior year is an important step. It is now that students decide to go on or give up. Though they may continue in classes, and possibly sports, the decision to really be a part is now.

# Our Journey Has Come to an End

**W**hat is a sophomore? One who no longer has to take the teasing and ridicule of being a freshman. One who is not yet accepted as an upperclassman. One who still has a long way to go.

Being a Sophomore did not discourage the class of 1987 as they became even more a part of Baldwin Park High School. Experiencing that year of 'nowhere' prov-

ed to be a positive experience for the more than four hundred sophomores representing the Class of '87. As they now move on to that special year of a Junior, an upperclassman, they will accept the responsibility of being looked up to by the Freshmen representing the Class of '89. Next year will be their year to grow even more. May they grow strong as a BRAVE.

# Freshmen: Attaining a New Milestone

**F**or many years, students have felt that reaching high school is a major goal or milestone in their schooling career. It signifies that they are on their way to bigger and better things. For some, it could mean the beginning in choosing a future occupation.

Among freshmen in general, there were some ambivalent feelings in the areas of social acceptance. The pressure was always on; traditionally freshmen are constantly ridiculed and pushed around. However, B.P.H.S. freshmen seemed to have found their niche among

upper classmen. Being placed in and having selected classes with sophomores, juniors, and seniors, freshmen have been given a sense of responsibility and equality.

The class of '88 was the largest class on campus. When they had strived for their goals and accomplished them, one could describe the Freshmen class as living up to its name. They tried many things this past year, and they succeeded in gaining valuable knowledge and experience through learning from errors of classes in the past.

## Experienced Faculty

**M**any faculties started out in a small schoolhouse with only twelve students. These students were in different grades and learning various subjects. The teachers were appreciated by these students, and the teachers were able to cope with them.

Today the faculty operates from separate classrooms with thirty or more students per period, five periods a day. They are still able to

help every student individually, attempting to meet their educational and learning needs.

The faculty of Baldwin Park High School this past year were our friends, helpers, and teachers. They were there when we needed them, and they did their best to not only teach us what we had to know, but to listen when we had a need to be listened to.

## What is A.S.B.?

**W**hat is ASB all about? Is it a time for fooling around? Is it just making up crazy things to do at lunch or brunch? Or is it a time of hard work and serious thinking to benefit all the students at BPHS?

What ASB, or Leadership, is all about is a group of involved, caring students who want Baldwin Park High School to be the best it can be for everybody. Planning and coordinating all of the activities, dances, and fund raising campaigns that are a part of the school scene is not an easy job. It takes

dedication and hard work, sometimes before school and often after everybody else has gone home.

The leadership class is not only made up of ASB officers, but also the elected members of each class. In addition to leadership, each class also meets with its own elected members to plan and sponsor activities for the class.

All of the students involved in ASB and class leadership have one common goal: to make Baldwin Park High School the best it can be, a truly **AWESOME** school!

## Government Involved

School life outside the classroom is under the control of the students activities office, headed by Mrs. Murad and the ASB officers. These individuals have a lot to say about what goes on at BPHS, such as brunch and lunch time activities, dances, and rallies.

The Senior Class is responsible for activities like the Winter Ball and Senior Excursion.

The Junior Class responsibilities are the running of the snackbar at football

games and the Junior-Senior Prom in May.

The Sophomore Class has the responsibility of raising money to prepare for their Prom and establishing a fund to be used for the graduation gift to the school.

The Freshman Class is in a learning stage. They do hold numerous fund raising activities and assist with the overall operation of student activity functions.

# CLUBS & ORGANIZATIONS

## Not Just Another Funny Face

**T**he clubs of Baldwin Park High School are not just a group of people looking for a good time. They are groups of people that work together to make this school a better place for all who attend and work here.

The clubs organize many activities ranging from a candy sale to a dance, to community service. Most important of all is the accomplishment a student feels by being involved in something worthwhile.

Examples of some of the personal and group achievements during the year are the window painting contest for Halloween by the

Art Club, Christmas carols sung at convalescent hospitals by the members of the Key Club and Keywanettes, and the special community projects and programs performed by the members of the GATE Club.

Many of the clubs at Baldwin Park High have been in existence for many years. Other clubs such as the Kaibigan Club, Drama Club, FHA-Hero Club, and Photo Club were founded in just the last couple of years.

There are many reasons why students become involved in the various clubs, but most important is that they do join and take an active part.

# Sing a Song

Choir was full of excitement and enthusiasm. With a new director, Mrs. Barto, the choir made tremendous advances.

Working in conjunction with the choirs at Sierra Vista to form the District Choir, the girls from Baldwin Park High proved

to be a valuable asset.

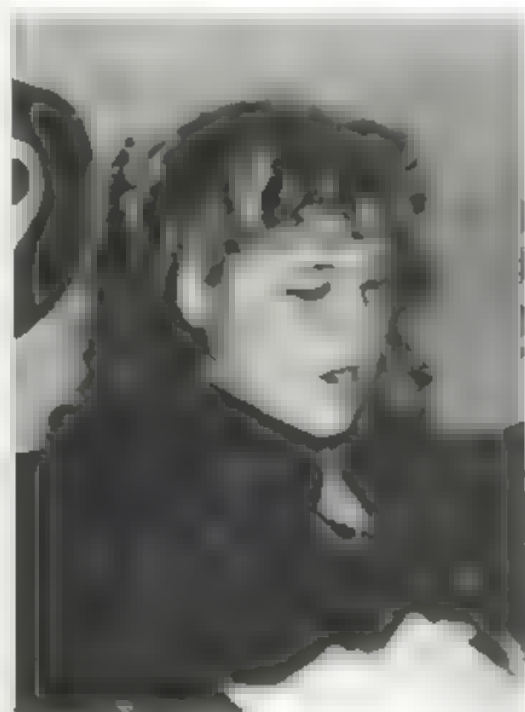

Mrs. Barto hoped that next year the choir will increase in size as the students at Baldwin Park become more aware of the choir's existence. The choir is not for girls only, and male students are encouraged to become involved.

# The Music Doesn't Stop

In previous years the Jazz Band was a regular class during the regular six period day. They experimented with a new program, practicing at seven in the morning. This allowed the director, Mr. Vorwald, to start a beginning jazz band during the regular day.

As the reputation of the jazz band continues to grow, so does the desire to be a part of this great group. The beginning class will allow more band students to become involved with the

jazz band idea, preparing them for an opportunity to advance to the regular jazz band as an opening becomes available.

Mr. Vorwald has done a great job with the jazz band at BPHS. They have competed in many jazz festivals, receiving high honors wherever they went. This also provided the group with an opportunity to represent Baldwin Park High School and the city of Baldwin Park throughout Southern California.

# ORCHESTRA

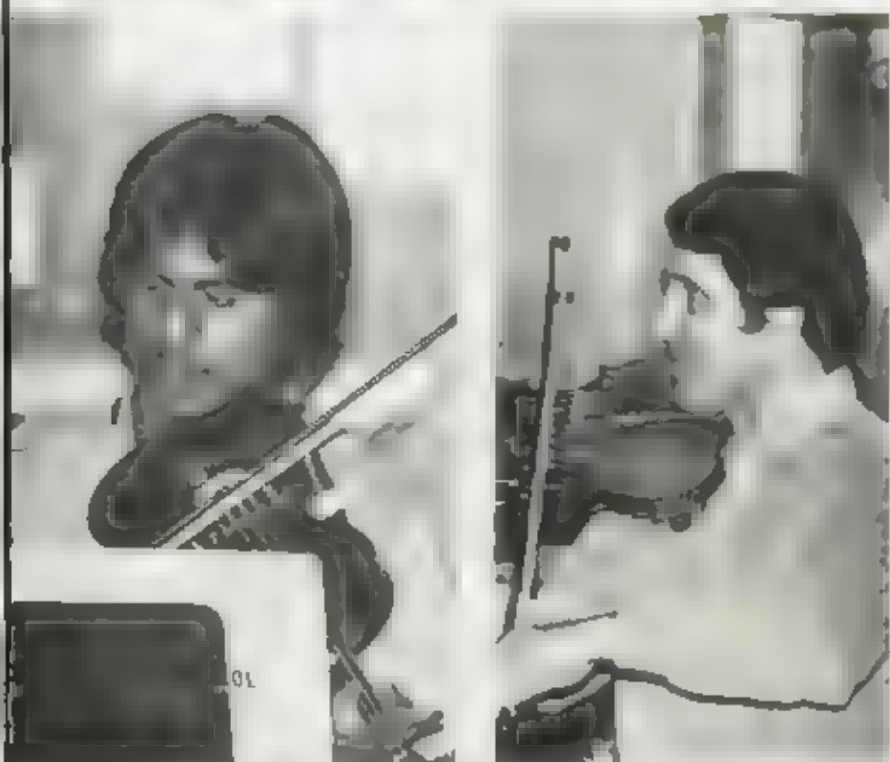

## Keeping in Tune

**T**he orchestra is a combined effort of both Sierra Vista High and Baldwin Park High. Directed by Mr. Klemm, the orchestra represents the district in formal music programs.

Different from the Marching Band and Wind Ensemble in not only composition, but also musical selection and instruments,

the orchestra gives the students an opportunity to experience a type of music usually reserved for only a select few.

Baldwin Park and Sierra Vista have a reputation for turning out great musicians. Perhaps some day these exceptional students will be a part of a great band or orchestra, due to their experience at Baldwin Park.

# An Outstanding Year

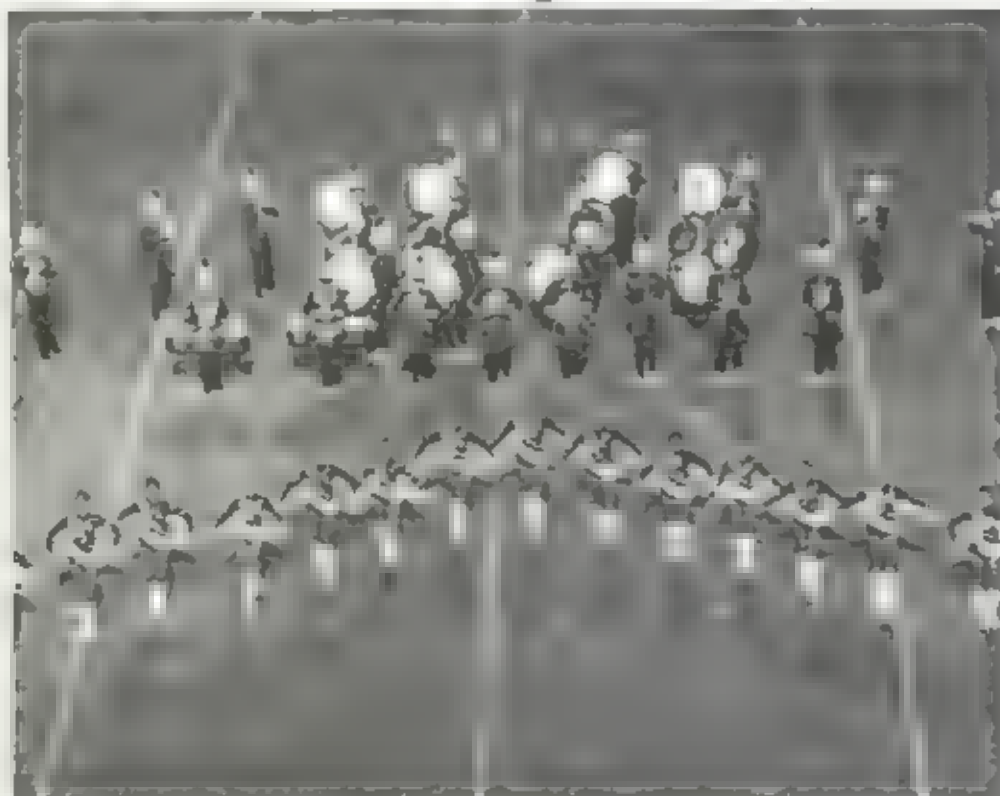

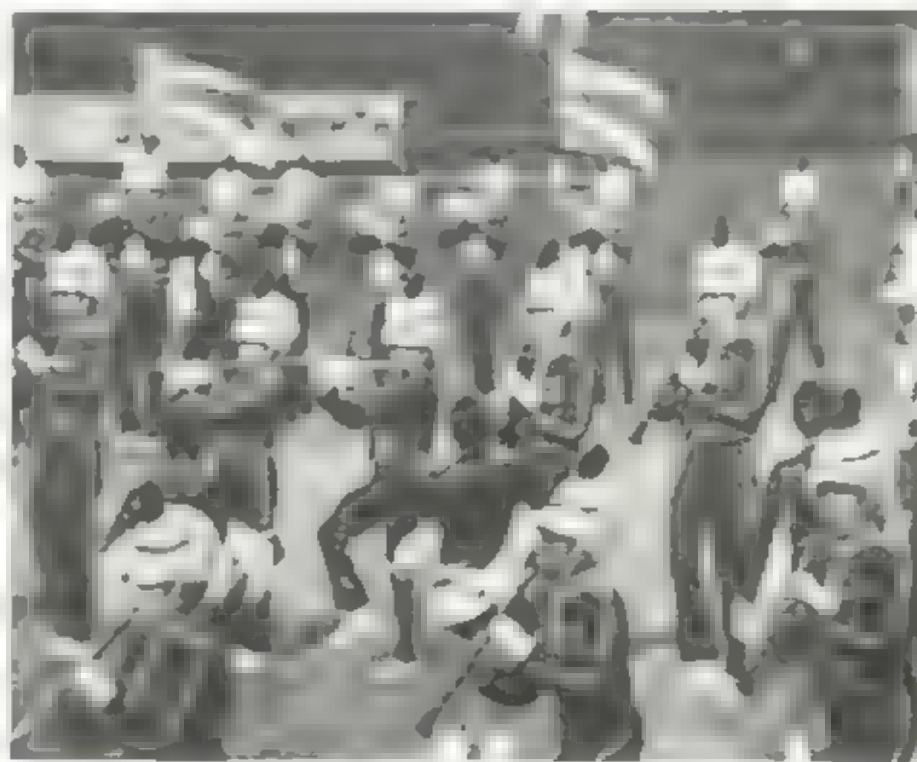

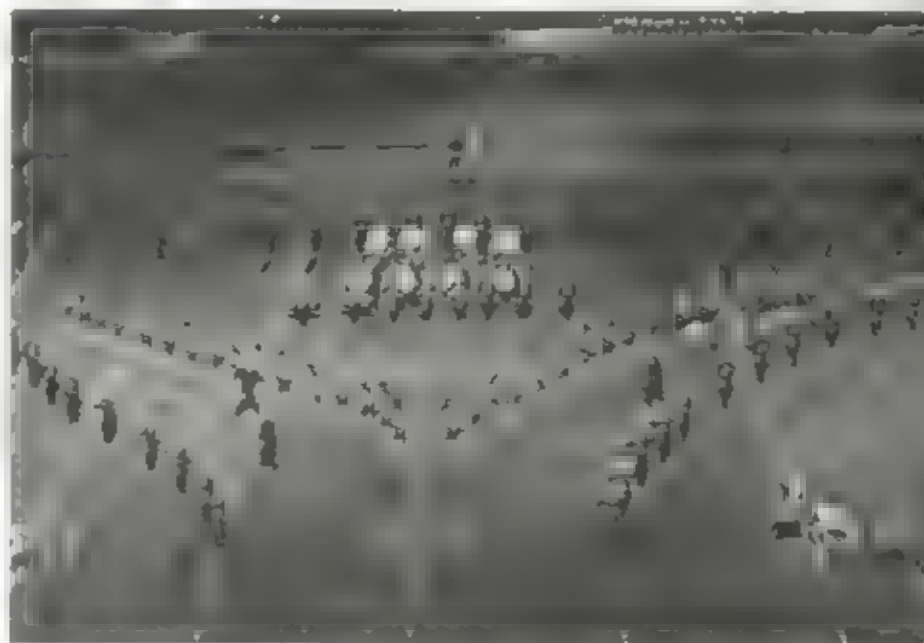

**T**he Braves Blue Ribbon Band had an outstanding season. Their precise marching and superb music gained them many honors and much recognition, and promoted pride.

In their first competition, the Azusa High Field Tournament, the braves captured first place honors. At the Sierra Vista Tournament they also received a first place trophy before dropping to second place at the Chaffey High Tournament of bands.

The band was invited to the Lester Oaks Band Review and Field Tournament in Riverside. In the first competition the band placed second. Later in the day the band came away with Sweepstakes honors.

As a result of their previous honors, the band was invited to the Chaffey College Band Review, placing second in field tournament and fourth overall.

Congratulations of a fine season.

# Striving for Their Goal

**E**xcitement was in the air for the 1984-85 Marching Band. They were determined as they worked toward their goal. That goal was Tracey, California. This past spring the band went on tour to the Tracey High School Band Review, Field Tournament, and Concert Competition.

For two days the band performed in various types of situations, playing arrangements that Baldwin Park fans are proud of. The first competition was parade marching followed by a concert competition. The last competition was a field tournament. As we all expected when they left the band performed exceptionally well, bringing honor and pride home to Baldwin Park.

Preparing to go to Tracey was not an easy

task. The band members had to raise over seven thousand dollars to cover bus fares, hotel accommodations, meals, and entrance fees. The members raised the funds through a series of fund raising activities both at school and throughout the community.

In addition to the fund raising, the band also had to spend a lot of extra hours practicing for the competition. Usually the competition season is finished in the fall, but this trip meant that the band had to keep in shape through the spring in order to be ready for the trip.

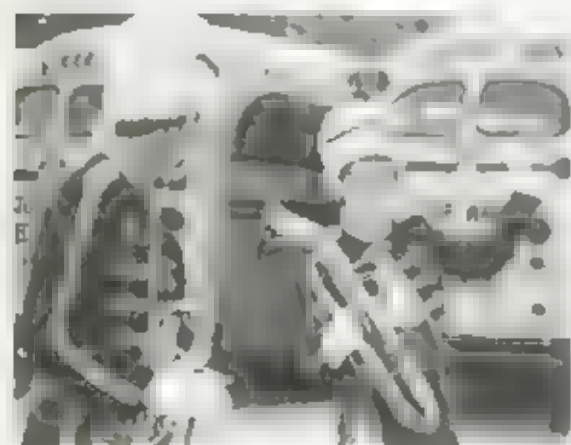

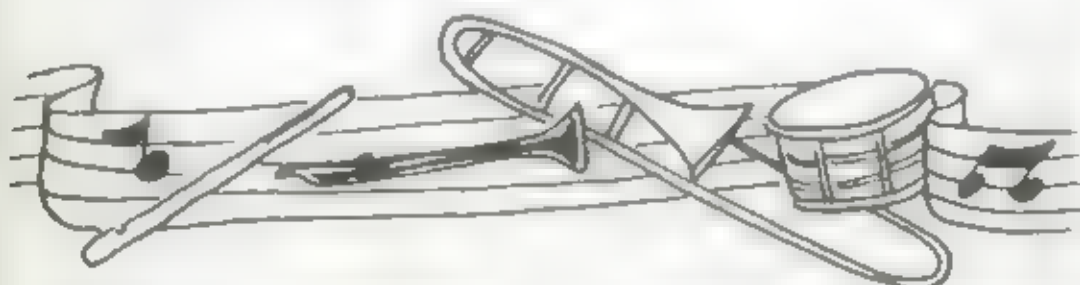

The band had a great time, performed very well, and, most important, succeeded in reaching their goal.

## Wind Ensemble

**W**hat is Wind Ensemble? Wind Ensemble is the highest performing band at Baldwin Park High School. Wind Ensemble is a group of students dedicated to music.

This past year the Ensemble performed at many festivals and competitions including the Pre-Festival Bandorama at Baldwin Park

High School, the Southern California School Band and Orchestra Association Music Festival at Sierra Vista High School, the Tracey High School Band Review in Tracey, Calif., the International Music Olympics in Anaheim, CA, and the Spring Concert at Baldwin Park High

## Symphonic Band

**F**or those students who are not yet experienced enough for the Wind Ensemble a place exists for them to learn and prepare, the Symphonic Band.

Performing at the same competitions and festivals as the Wind Ensemble, the Symphonic Band made a superb showing, adding en-

couragement that next year's Wind Ensemble will be better than ever.

Symphonic Band provides a place for all the musicians at BPHS, ever increasing the music program and adding to the many fine programs that the Director, Mr. Vorwald, has improved upon since his arrival at BPHS.

# Outstanding Flags

The 1984-85 flag unit proved to be one of the best flag units in the area during the 1984-85 marching season. Long after school and late night practices proved to be worth the effort as the unit captured numerous awards in local competitions.

Competing in tournaments such as Azusa, Chaffey, Sierra Vista, and Norwalk led to the grandest of all, the Tournament of

Champions. In addition, the unit provided entertainment at each home football game halftime show.

Good things don't come easy, as each flag unit member will tell you, but the effort and hard practice paid off as the unit brought pride and awards to Baldwin Park High School.

Congratulations to a fine marching flag unit!

## 1984-85 Drill Team

**D**rill Team has done a very good job. They have been in many competitions, scoring very high in most of them, and taking sweepstakes in four tournaments: Sierra Vista, Chaffey High School, Lester Oaks, and Tournament of Champions.

The girls put all they had into every performance, and it showed. The halftime shows at the football games as well as the competitions were a chance for the girls to show off their skills.

Preparations for the shows

was different than in the past. Instead of attending a summer camp as they have in the past, the team invested in dance classes with a professional dance instructor. The time and effort was well rewarded as the final results show.

The team also traveled to Tracey High School in April with the band. In addition to their regular field routines, the team also performs military and dance routines.

Congratulations on a truly fine year.

# Pep Squad 84-85

Alex Aguilera

**P**ep Squad of 1984-85 had a very exciting year. Under the expert guidance of Miss White, the girls had a tremendous year in competitions and game performances.

Each girl, after trying out for the squad, was faced with many hours of hard practice sessions preparing for the football and basketball games and competitions.

The effort was worth it as the girls gained knowledge of teamwork and dedication to the cause.

As each season ends the girls can look back, knowing they helped lead the spirit of the school year, carrying their teams to victory, praising them in defeat, always ready to lend moral support when it was needed.

Friday night, November 2, seven princesses were driven to the football field and introduced to the homecoming crowd of 1984. They sat patiently, enjoying the first half of the game, as each secretly hoped that she would be crowned

Homecoming Queen for 1984.

Halftime finally came, and it was time for that final walk across midfield, to the salute of the Braves band and drillteam.

The drum roll began as 1983 Homecoming Queen Doreen Archuleta strolled

back and forth behind each princess, finally stopping behind the chosen queen. Cameras flashed and the crowd went wild as Doreen placed the crown on the head of the 1984 Homecoming Queen, Tina VonWinkleman.

# A Night to Remember

The 1985 Winter Ball held on January 26 was special for many reasons. For the first time it was held at a place other than the Baldwin Park High gym. Held at the Pasadena Hilton Hotel, the dance was meant to be informal, but many decided to really dress up

The dance drew many students for various reasons. The seniors went because it

was their last yer. The underclassmen went to be with friends, and for many it was their first chance to attend a semi-formal dance. For the freshmen the dance held special appeal because it was their first large dance

The Winter Ball has graduated to something big and many are pleased that it has. The Ball of 1985 will be remembered for a long time

# Truly Outstanding

**E**ach year Baldwin Park High School takes great pride in recognizing those students who have excelled in various aspects of academic, artistic, and athletic achievement. In June the school holds its annual awards assembly at which time the many students are given their awards.

The Sagittar Staff goes to great lengths to identify and keep secret those students

who have excelled in each of the areas listed on this page. These are the best of the best, those students who have made exceptional efforts in a particular area of concentration. It is our pleasure to include these students in a permanent record for all to see in years to come. Congratulations on your outstanding performances. Keep up the good work.

# Yearbook Carries On

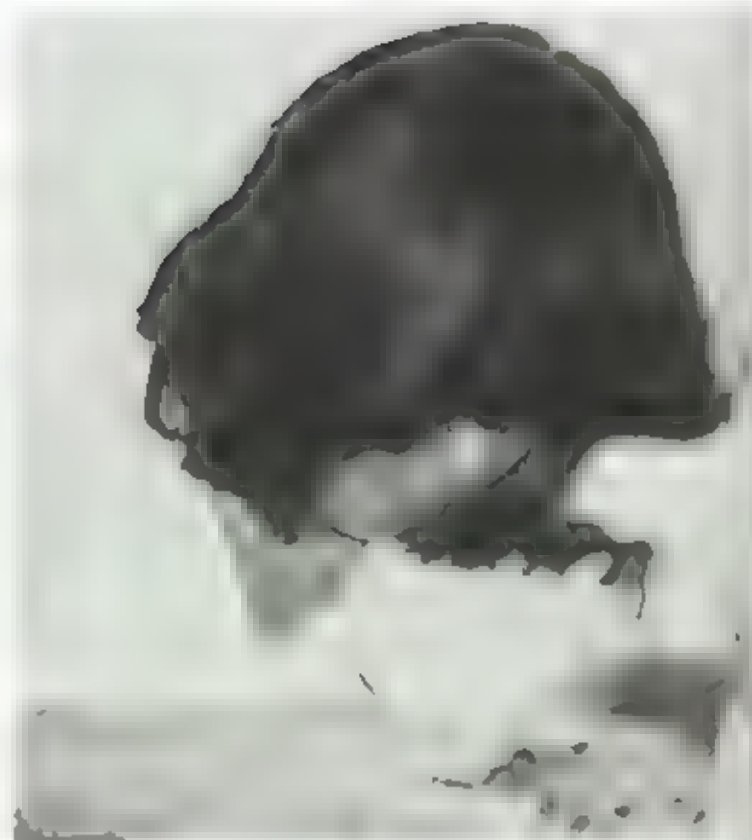

**E**leven veteran journalists led by editors Joaquin Durazo and Liberty Amador provided the nucleus for the 1985 Sagittar yearbook staff. Along with Photo Editor, Jim Dexter, and his staff of nine photographers, the thirty-two member team attempted to capture those fleeting memories of the year gone by.

Crazy as they are, yearbook staff members put in many long hours and a lot of hard work providing a source of information in years to come of those short, but precious, high school years. Deadlines were approached with frantic cries of, "Where's my pictures?" and a fear of long hours ahead. Starting at eight in the morning and staying as late as eight at night to get the job done was a common occurrence at deadline time.

Is it worth all the trouble? As one staff member put it, "When you finally see the finished product you realize

that this is something that will be around for a long time. All of the long hours and anxious moments no longer matter as you see the approval of the finished product reflected in the reactions of those who waited nearly a year for that special moment, delivery day. Yearbook staff is a great experience and wonderful place to make new friends. We had a great time."

As Mr. Farmer, Sagittar advisor stated, "The students who make up the yearbook staff are truly a great bunch of young adults. They accept a responsibility that cannot fail and carry out their individual tasks to the end. There are trying times for all of us, but the rewards are worth it. Each staff is special in its own way. The work is done by the students themselves, and this year's book had less outside help than any we've ever done. The 1985 staff has done a remarkable job."

## Streak Returns

The school newspaper began about the time the school was established in 1952. In the beginning journalism was a major interest. As the years went on students started losing interest in the subject, and the newspaper suffered.

The paper continued even though the lack of interest grew. For four years the paper struggled to stay alive, but in 1981 it died.

The following year some of the leadership students tried to get the paper started again within the realm of the leadership class. This worked to some success, on a limited basis.

This year Mr. Sterling recruited enough students to revive the Journalism class. The Silver Streak now has its own staff of twenty-seven students. The responsibility of keeping the paper alive now rests on Mr. Sterling's shoulders and those students who will be returning next year.

It is hoped that the re-establishment of the Silver Streak will also revive the lost spirit that now exists in a great many students. By keeping them informed of what's happening at Baldwin Park High the students will hopefully gain new interest in their school.

## A Night to Remember

**F**ebruary 15, 1985 marked another great basketball game for Baldwin Park High School. Playing an always tough Royal Oak Roman team, the Braves were holding their own as the half-time approached.

There was excitement in the air other than the game on this night however, as the 1985 All Sports court, followed by the King and Queen, would be announced at half-time.

As the court was announced they marched on-to the floor to await the final announcement. Waiting to crown the new

King and Queen were Tina VonWinkleman, this year's Homecoming Queen, and last year's All Sports King, Robert Viramontes. The crowd grew quiet as the Boys' Track Team nominee Angel Vasquez and Pep Squad nominee Michael Johnson were crowned Queen and King for 1985.

The Braves returned from halftime to defeat the Romans 78-58. Following the game, an All Sports dance was held to honor not only the new King and Queen of sports, but all the athletes of Baldwin Park High School for 1984-85.

# Another Undefeated Year

The Baldwin Park Braves varsity football team enjoyed another great year, going undefeated all the way to the CIF finals.

The Braves started their undefeated season by winning both the Mt SAC passing League and the Hart Invitational Passing Tournament during the summer. Defeating Covina in a pre-season scrimmage led the way to nine winning games during regular season play, and another Montview League championship.

The Braves entered the CIF playoffs, leaving little doubt that they would go all the way to the finals, ranked number two behind Diamond Bar High School, last year's CIF champions.

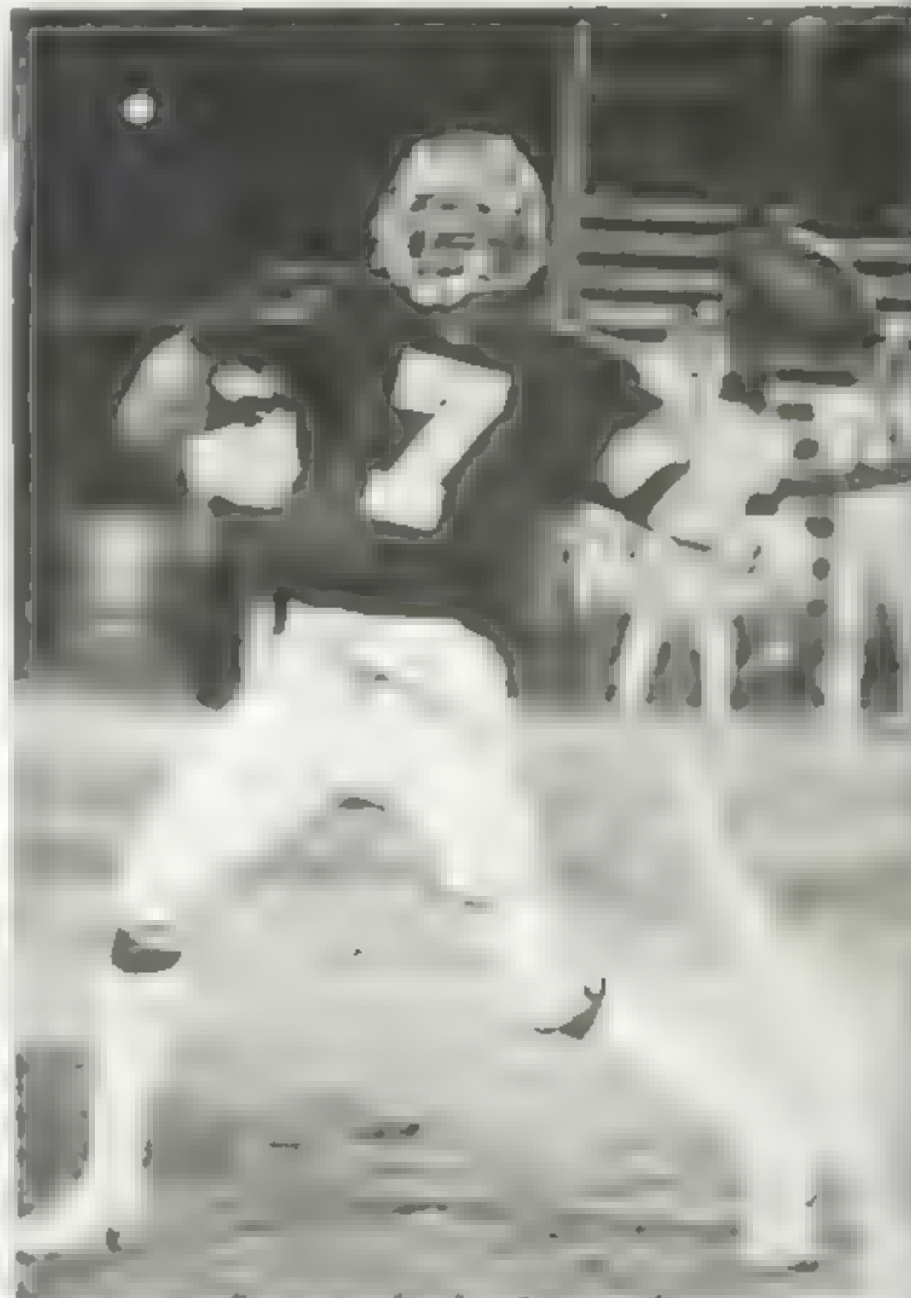

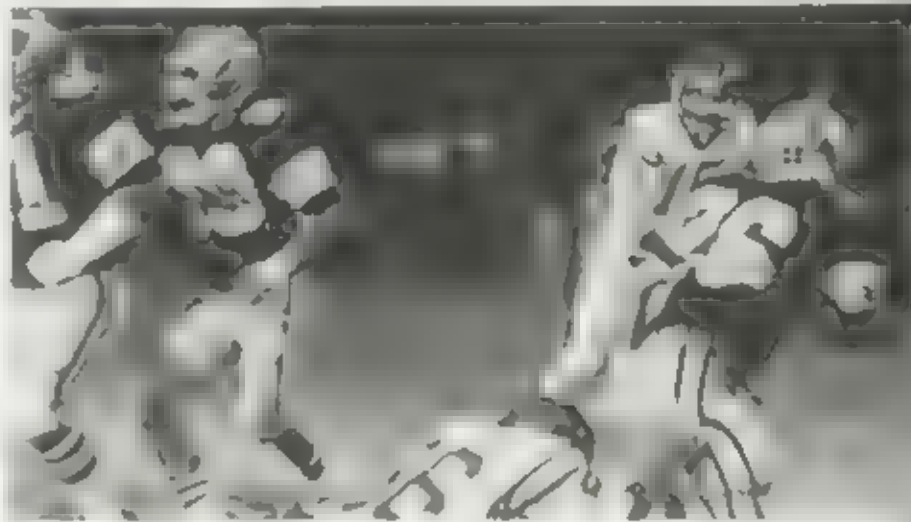

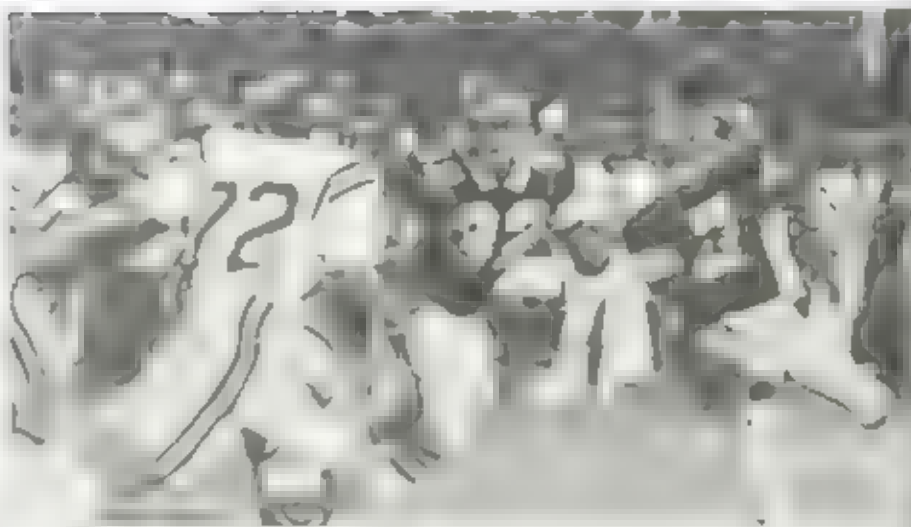

Doubts arose during the second playoff game against Apple Valley High in Victorville. After a cold first half the Braves and the crowd warmed up and came away with the narrowest victory

all year

There was no stopping the Braves as they rolled on to the finals against Diamond Bar at Mt SAC. This was not to be our year however, as the Brahmas proved to be too strong for the Braves. Only two teams make it to the finals, and Baldwin Park can be proud that the Braves were one of those two teams. Losing the last game is no disgrace.

The Braves made 1984 the eighth straight league championship, and the sixth time the Braves were 9 and 0 at the end of the regular season. The Braves made it to the finals one other time, beating Atascadero for the championship.

Congratulations to not only the team but also to the fine coaching staff of Ty Pagone, Ron Mead, Mike Hunkins, Tony Zane, Larry Davis, and trainer Bill Sterling for another great year of Braves football

As the first game approached, the players were excited, as they felt they had prepared well and would be a strong contender.

Led by Rico Salcido,

Bert Martinez, Joe Rodriguez, and Eric Galindo the Braves proved once again that they truly were a number one team.

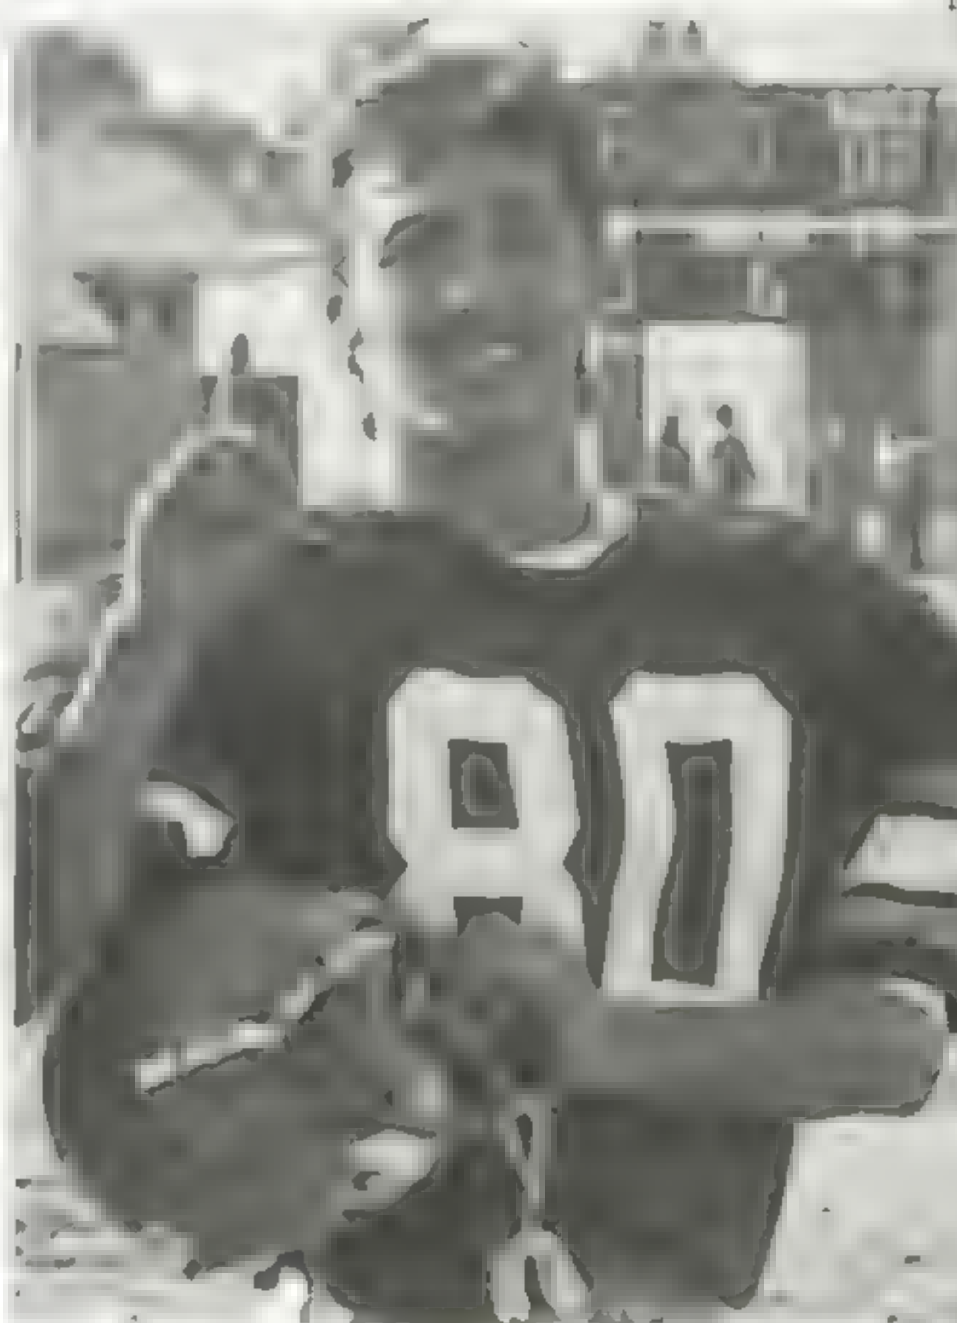

Ending the season with a seven and two record, the young Braves team developed many potential players for next year's varsity squad. Congratulations Braves for a great job.

# Starting Off With a Bang

The 1984 Freshman Football Team started the season off with a bang by winning their first game. They then won their second game, their third, and so on until their record was 8 wins and no losses.

They had been blowing their opponents off the field almost every game. Led by quarterback Kirk Gair, the mini-Braves were the talk of the school, often compared to the varsity squad as to

performance.

The last game of the season was against undefeated Royal Oak, playing their last game under that name. Emotions were high, as were ambitions, but Royal Oak came to win, spoiling Baldwin Parks bid to have two undefeated football teams in regular season play.

The mini-Braves had a team that the school and the community can be proud of.

# Climbing to the Top

**T**he 1984 Boys' Varsity Cross-Country team had a fine season. With a three win, three loss record the team went to the CIF competition by beating out Charter Oak for third place in the Montview League finals.

At the CIF preliminaries, held at Mt. Sac, the team ran well, but was turned back because of the tough competition. There was one

bright spot in the competition as Jose Mellin placed third in the division 3A competition. Despite the loss, the team was satisfied for going as far as it did.

Seven returning runner also helped the team in a tough Montview League. Jose Mellin and Homer Chavez, the number two and five runners in the league, led the Braves runners

# An Impressive Season

The boys' Junior Varsity team had an impressive season. The team placed third in Montview League with a four win, two loss record, missing second place by a few points. Many of the runners moved back and forth between the Varsity squad, making the difference. Manuel Alvarez led the team with a time of

18.53

The 1984 Frosh team was a good chance to gain some valuable experience. The young and inexperienced team did not lack determination. They placed third in league competition as well with a three win, three loss record. The team was led by Julio Rivas.

# Strides Along

When the 1983 season came to an end, Coach Molnar hoped that the next season he could have a full girls' cross-country team. When the 1984 season began his wish had come true. Nine girls signed up, making it possible to have a full varsity team. The team ran well, but lack of experience showed.

The girls' varsity was led by the only veteran on the squad, Jenell Gomez. Despite being injured part of the season, she still managed to post a best time of 19:42. Following closely behind Jenell were Melissa and Valaurie Culpepper.

With only one senior on the squad 1985's prospects look very promising.

# Volleyball Teams Never Gave Up!

**T**he 1984 Varsity and Junior Varsity Volleyball teams were relatively young with regards to experience. It was a year of physical strengthening and forming for next year's teams. Both Varsity and Junior Varsity had the ability and talent to have a winning season in spite of their inexperience, but too much individuality kept them from pulling together as a unit.

Returning players for Varsity were Bonnie Abbs and Mary Gurdian. The only returning player for the JV

team was Sandra Arevalo.

Although the season did not go as well as expected, both coaches and team members learned the importance of working together.

Miss Anndahl worked hard to maintain a family type atmosphere among the teams. Tywania Lott noted, "Although we knew we were losing, we always put up a fight and never gave up. It really depressed us when we lost."

With the type of determination, next year's team has no where to go but up.

# A Trying Year

**G**irl's Varsity Basketball team had five returning players—Cathy Campbell, Jackie Johnson, Rachel McBride, Mary Munoz, and Carol Campbell combined with new players Mary Gurdian, Petra Jauregui, Tawania Lott, Lisa Lira, and Elvia Sanchez to represent the Braves on the Girls' court.

The ten member team got off to a slow start and were

not able to recover in time to field a winning team. Even though they didn't have a winning season, the Braves never gave up, continuing to fight for that elusive win.

Led by coaches Loretta Lorenzano and Raymi Johnson, the Braves in spite of their non-winning season, learned from their weaknesses and are planning for a great year in 1986. Hang in there BRAVES!

# Young but Determined

**J**V Girls' Basketball team was quite young, but very determined. Coach Schroder initiated a team training program to get the girls started off on the right track. Stressing teamwork and skills, Coach Schroder was off to a promising season.

However, promising seasons don't always keep their promises, as the girls got off to a slow start in actual competition. They won their first game against Charter Oak in January,

having lost the first five games of the season.

The young, determined team continued to fight for those elusive wins as the season continued. Team members Michelle Amaya, Kris Brown, Rita Bruner, Janie Campbell, Julie Clendenon, Norma Guitierrez, Virginia Medina, Angel Mercurio, Gina Mercurio, Fabiola Monroy, Colleen Myers, Becky Quintanar, and Rosa Quintanar never gave up during the season.

# Coming Alive

The 1984-85 Varsity Basketball team played competitively in every game, knowing they had to do as well, if not better, than last year's CIF team.

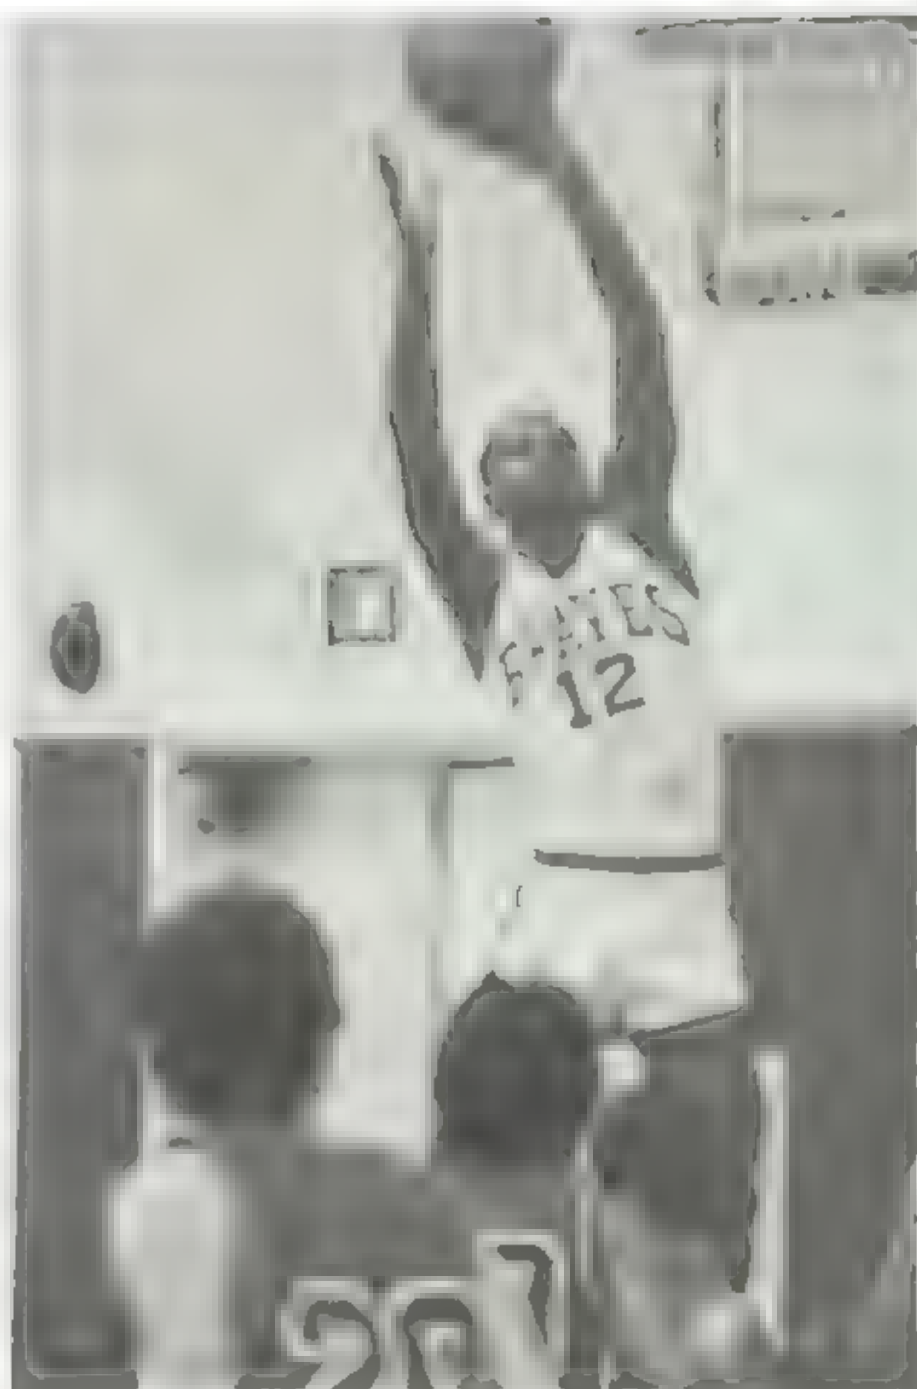

Led by Captains, Michael Johnson and Paul Potvin, the Braves proved to be a tough match for each of their opponents throughout the season.

Guided by Coach Romero and Coach Cooper, the

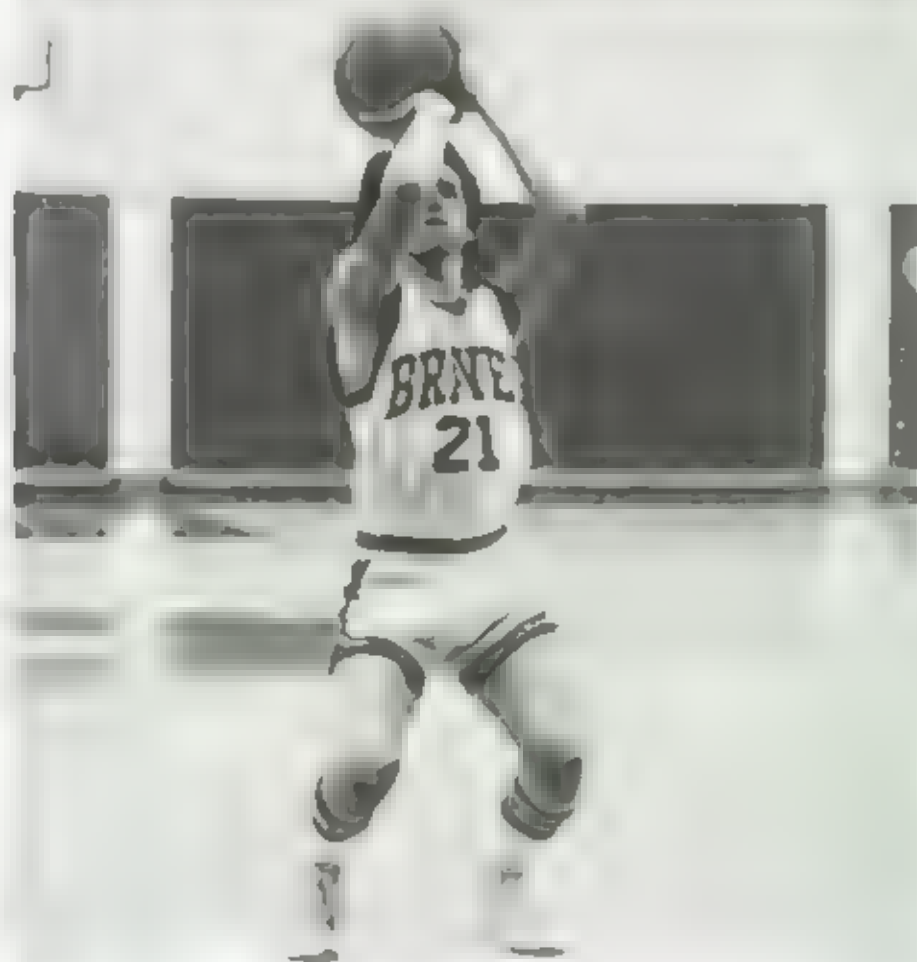

Braves kept their opponents guessing as to what they might do next. The bench provided a much needed assistance through the season as well, and the newest sensation to the Varsity squad, Charlie Moran, proved to be a big asset to the team's fantastic season. It looks as if Basketball has come alive at Baldwin Park High School. Congratulations to a fine team.

# J.V.'s Have Spirit

**B**oys' Junior Varsity Basketball team showed a lot of spirit during this past season. They proved that they have the potential to move up to the varsity level and continue their winning ways for Baldwin Park High.

Working together was the theme of the team's success this year. With excellent performances by starters Hamilton Bohorquez, Scott

Robles, James Alquitela, and David Mueller, and superb relief from the bench with Tony Gonzales, Bert Martinez, and Mike Levesque, the Braves fielded a team ready and willing to beat anyone.

Under the guidance of Coach Flores the team learned a lot and will be a valuable asset to the varsity squad in the future.

# Frosh Dribble On!

The 1984-85 Boys' Freshman Basketball team had a great legend to follow, and they did it in style. Having to begin each year with an all-new squad is a challenge for any coach, but Coach Figueroa did a great job with the team.

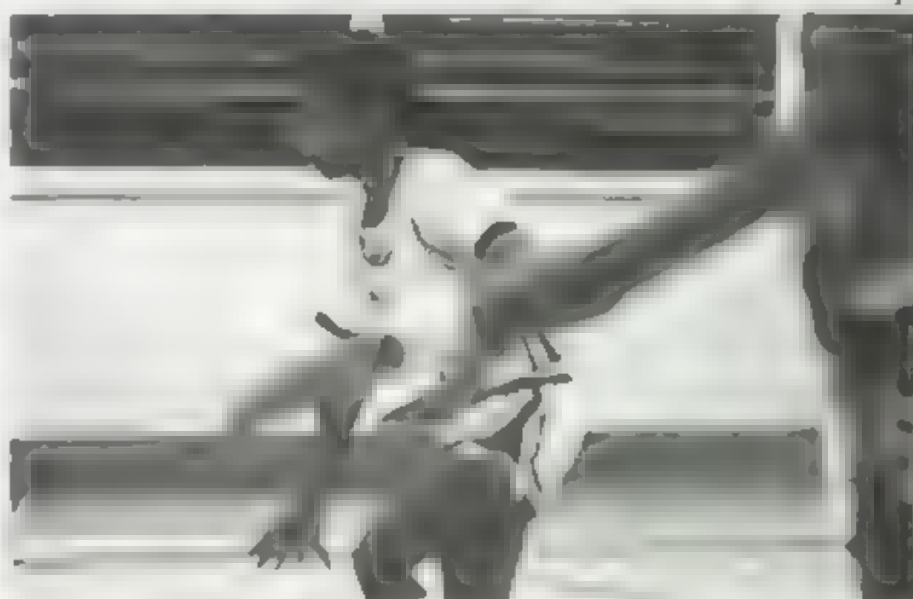

At the beginning of the season, Coach Figueroa felt that he would have a winning team if they could improve on their field shooting plays. He also indicated that

the team needed to work on its basic fundamentals. With Coach Figueroa's past experiences we know he will continue to field challenging teams.

The team members were Erid Albert, Carlos Castanar, Tony Hendrix, Ed Kelley, Manuel Martinez, Anthony Miranda, Craig Richards, Charles Rogers, Florencio Sanchez, Paul Sanchez, Pete Soha, Steve Tobin, and Elias Villasenor.

# Varsity Soccer

Combine a new head coach with a few new faces, add a great bunch of returning lettermen, and what do you have? The 1985 Varsity Soccer team.

Stepping up from coach of last year's Junior Varsity squad, Coach Loumagne provided the leadership as returning lettermen Chris

Torres, Jose Mellin, Ernie Cruz, and Carlos Aguilera provided the spark to field another great Braves soccer team. Add to this list last year's outstanding JV players Joe Rodriguez and Manuel Alvarez and the Braves were even harder to beat.

## Hoping for Three

**T**he 1985 Junior Varsity Soccer team had a reputation to uphold as their season began. The Braves were two-time defending league champions and this year's team wanted it to be three.

The Junior Varsity team has the main goal of developing future Varsity stars, which meant that they didn't have the pleasure of developing and maintaining a consistent team.

Each year brings new faces and talent to the Braves

squad. This year also brought a new coach as former Coach Loumagne moved up to Varsity. Coach Medel took charge, striving for excellence right from the start. With outstanding performances from freshman, Juan Flores on defense, the Braves proved a hard team to score on.

As their primary goal is being fulfilled, so too is their secondary goal, to win as a team. The Braves did that very well.

## Two Great Teams

**T**hey were two great teams this past year — Varsity and Junior Varsity Badminton.

Under the supervision of two new coaches, the Varsity team had one of their most successful seasons in many years. Eight returning players helped guide the team through some hard fought matches. One of their most outstanding wins was against cross-town rival, Sierra Vista, 17 to 2.

With only two returning players to help them get started, the Junior Varsity squad had an impressive season. At a time when many of the schools are unable to even field two teams, the Braves had a program that guaranteed a full court for every match. Coach Barcelona succeeded in teaching and guiding his new players, thereby guaranteeing another great varsity team in 1986.

# With Winning on Their Minds

Winning was what the girls' of the Varsity Tennis Team had in mind when they began their season last fall. They practiced and played their hardest to make that goal become a reality.

Winning thirteen matches and losing only five for a second place finish in league play, the girls' team sent singles players to CIP

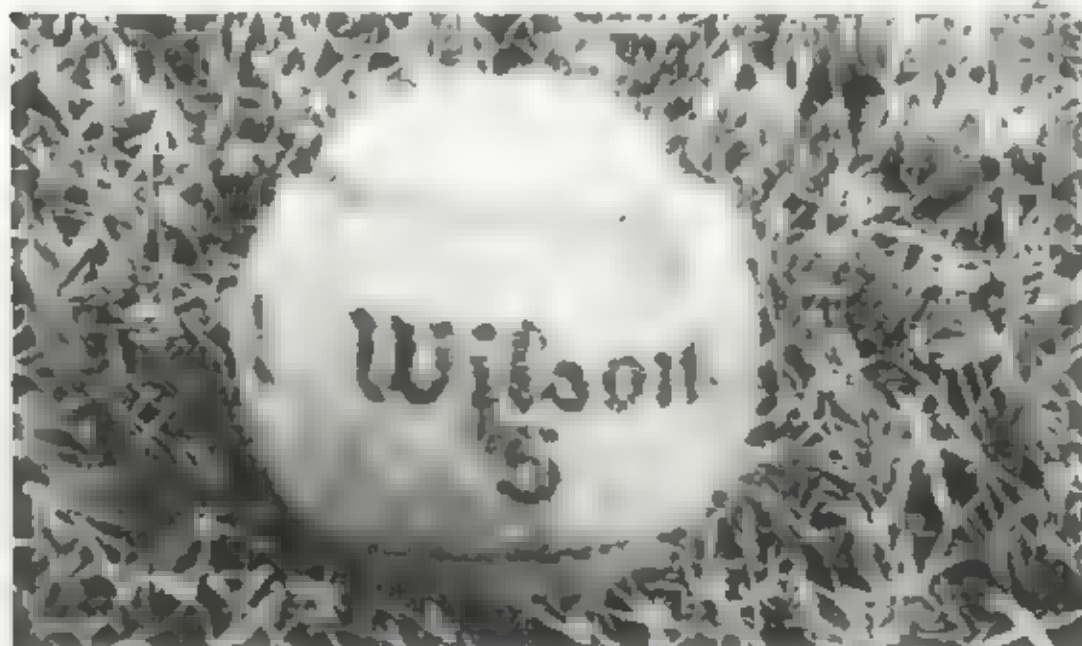

competiton.

Connie Pining had an overall record of fortyfour wins and four losses in singles competition. Noemi and Joy Villafranca were first team all-league in doubles with a thirty-three and three record.

The year was a tough year for the team, but they proved to be tough in the end.

## JV's Grow

**A**t the beginning of the season the Junior Varsity Tennis team began with girls new to the game. Some of these girls didn't even know how to hold a racket according to Coach Cherroci. This team had a lot to learn about tennis.

With a lot of hard work and long practice sessions,

the team finally came together. They were ready for their first match. In a close match the J.V.'s won their first match against Gladstone, 11-9.

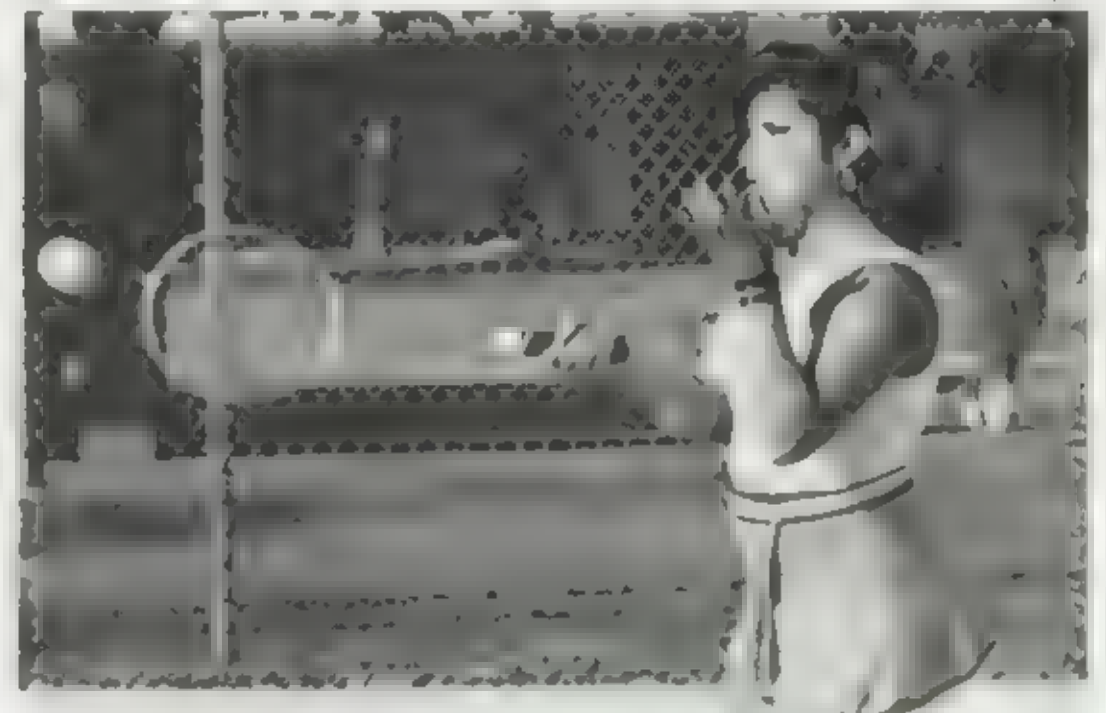

With continued hard work, the girls had an overall record of six wins, five losses, and one tie to finish in third place.

## A Winning Season

When the first practice took place for the 1985 Boys' Varsity Tennis Team their main goal had already been determined. That goal was to place in the top three in Montview League, and hopefully take first place.

Sophomore Cat Pining led the singles' matches with doubles' players Ernie Alonzo and Gary Miyagishima, and John Bosler and Gabriel Bautista adding that extra punch to put the Braves on

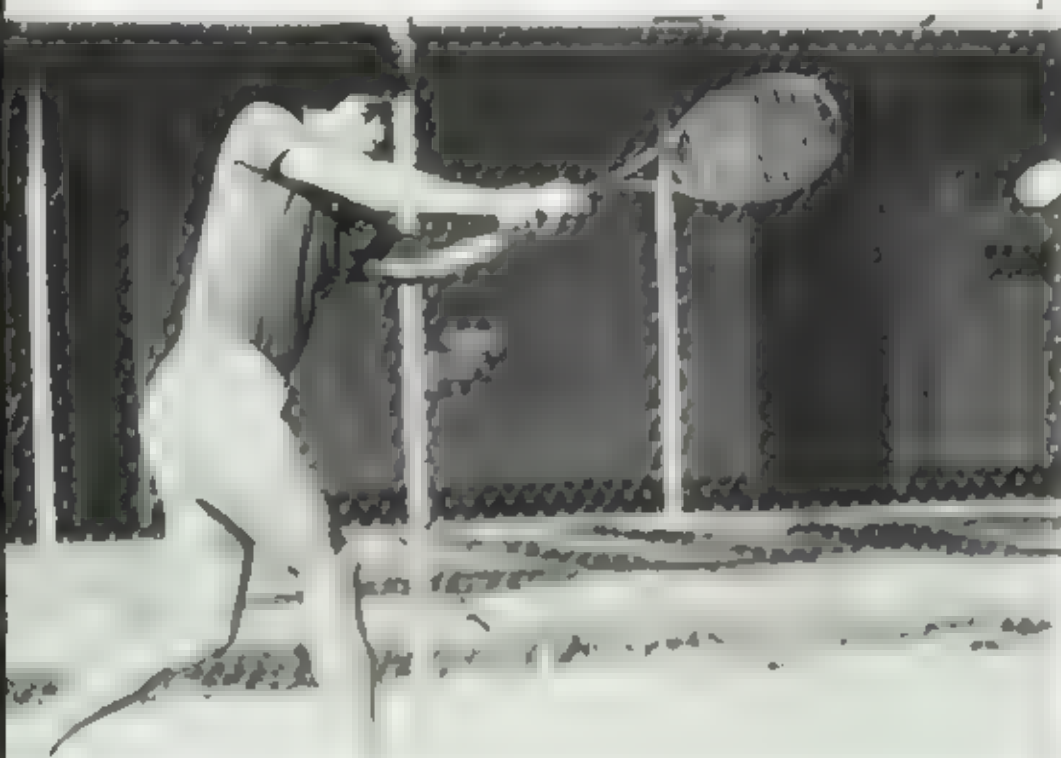

the winning edge.

After finishing the preseason play with a four and one record, the team began league play against a tough Azusa squad. The Braves came out on top by a slim seven points.

Coach Terry has brought the Boys' team a long way in his two years with the varsity. The team has proven that the Braves can be a tough competitor in the world of tennis.

As the 1985 season began for the Boys' Junior Varsity Tennis Team, the prospect of having one of the best teams ever looked promising. With only two returning players, Jeff Ramirez and Bill Hartsock, to hold down the doubles competition, Coach Cooper was looking at a rebuilding season.

New players Joe Brito, Tony Gonzales, Greg Cook,

and Cliff Thelander took over the singles' competition while John Harper and Ricardo Luna anchored the second doubles' team.

With the prospect of many of the JV players moving up to the varsity next season, Baldwin Park is well on its way to becoming a school to be reckoned with in the sport of tennis.

## Eleven Create Nucleus

**E**leven returning letter women created the nucleus of the Braves Varsity Softball team for 1985. Seniors Erika Rivas, 1984 All-League shortstop, and Edna Archuleta, All-League outfielder were major sources of inspiration for the Braves. Other returning players were Monica Fierro, Marie Angelo, Liz Kane, Mary Gurdman, Torie Kenyon, Sylvia Inocencio,

Jackie Johnson, Lisa Chavez, and Eydie Soto.

The Braves' strongest asset this past year was a stingy defense, shutting out many of their opponents on their way to a victorious season.

As the Sagittar went to press the girls had accumulated a 4 and 1 preseason record and a 3 and 0 league record.

## Skills, Begin to Show

With only two returning players from last year's team, the Braves' Junior Varsity Softball team had a lot of rebuilding to do. Led by returning first baseman Chris Keele and utility player Kerry Runke, the young Braves were hopeful that they would make an impressive showing

and be ready for the varsity squad next year.

The beginning of the season was not encouraging, however, as the team gained experience working together, their skills began to show. At the end of the season the Braves could say they had a successful season, in spite of their record.

# Varsity Baseball Fights Back

**T**he 1985 Varsity Baseball Team began the season with one goal, to regain the league championship. After four straight years as Montview League champions, the Braves gave it up in 1984 to Azusa.

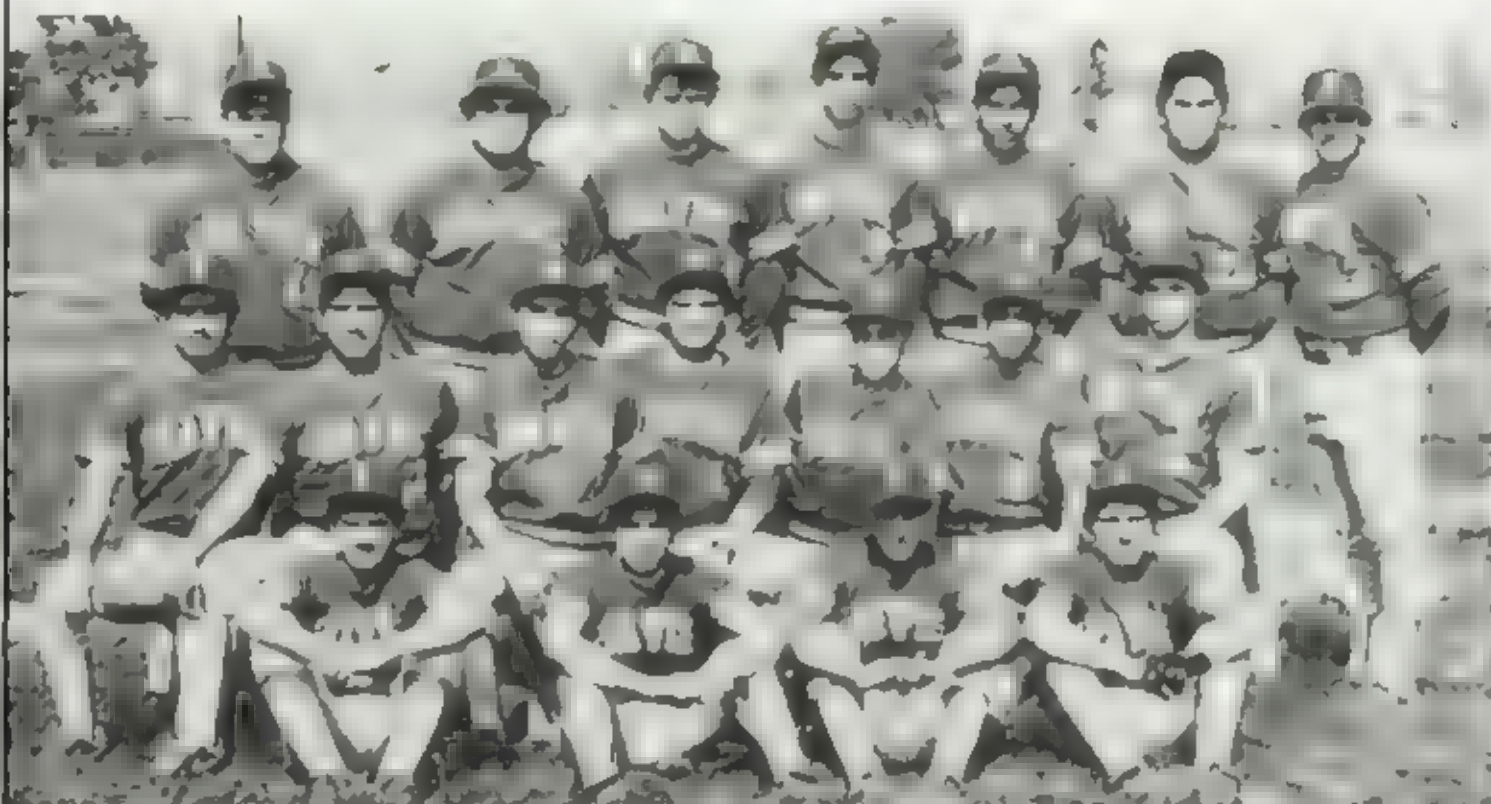

With experienced starters Randy Knorr, Armando Murillo, Carlos Aguilera, Mike Woods, Armando Palacio, Mike Barraza, Donald Sharp, and Paul Potvin anchoring the starting lineup, the Braves got off to

a rough start in preseason play. Finishing preseason with a 3 and 3 record and a fourth place finish in the Glendora Tournament, the Braves were casting some doubts as to their future. All three losses were the last three preseason games.

The league season started off on the right foot though and the Braves were on their way. Once again the Braves' baseball team proved to be a power in the Montview League.

# J.V. Baseball Rolls On!

After two years of winning the Montview League championship, the Junior Varsity Baseball Team had a big job ahead of them. Coach Jarvis took the fifteen players and helped mold them into a solid, well-rehearsed team to make a move on a three-time championship.

Starters Scott Robles, Mike Levesque, and Henry

Perez led the team as they conquered their opponents, preparing themselves for the ultimate goal, a position on the varsity squad in 1986.

Records are something to be proud of, and so are victories and championships, but most important is the experience and teamwork that one learns from being a part of a Braves' team.

# The Road to Success

**B**aseball one of America's favorite pastimes. Just what is the object of this sport anyway? Is it to hit a ball and run? Or is it to see who can make the most spectacular catch?

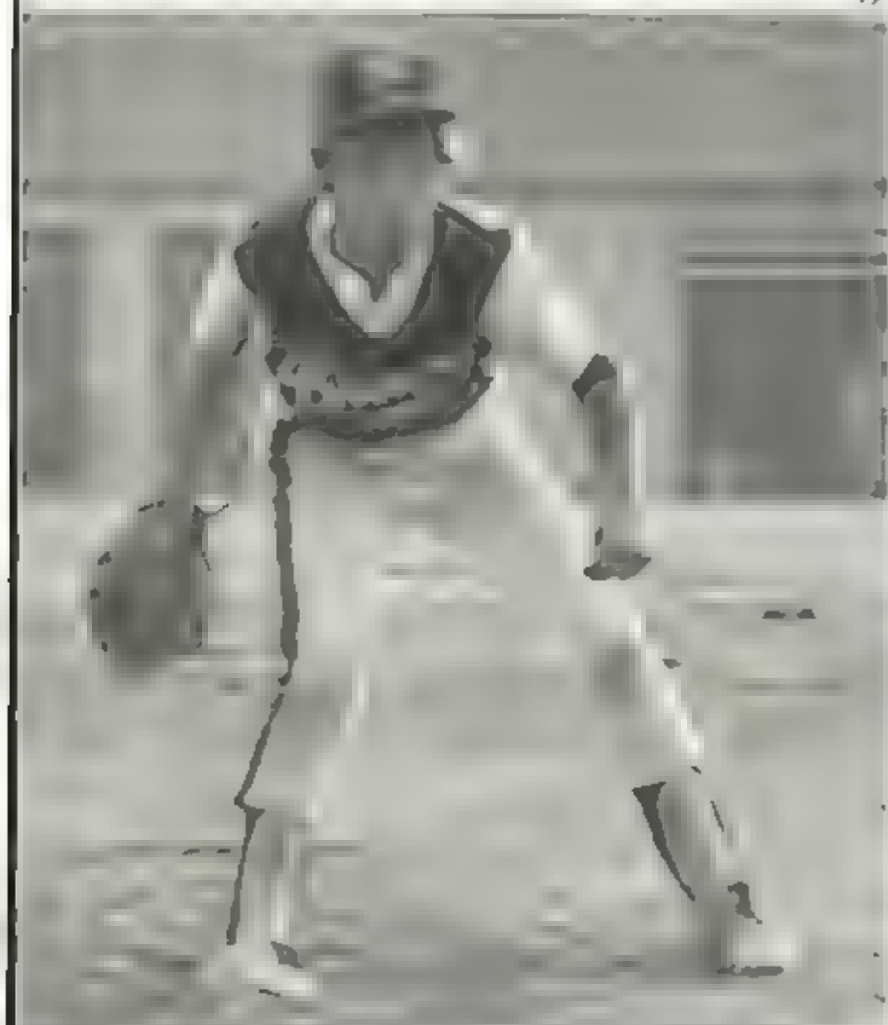

Many may think that baseball has become the object of the single man's effort or accomplishment, forgetting that baseball is a team sport; it takes nine players working together to win the game

At Baldwin Park High School the Freshman Baseball Team is the starting place for many players that may eventually become varsity stars.

Under the watchful eye and careful guidance of Coach Figueroa and his assistants, the young Braves embark on a path that hopefully, will lead to that big game, the CIF championship as a varsity player.

# Achievement of Varsity

The 1985 track teams were young and inexperienced, but that did not hold them back. With a lot of effort on each member's part, the Braves finished with one of their best records in many years.

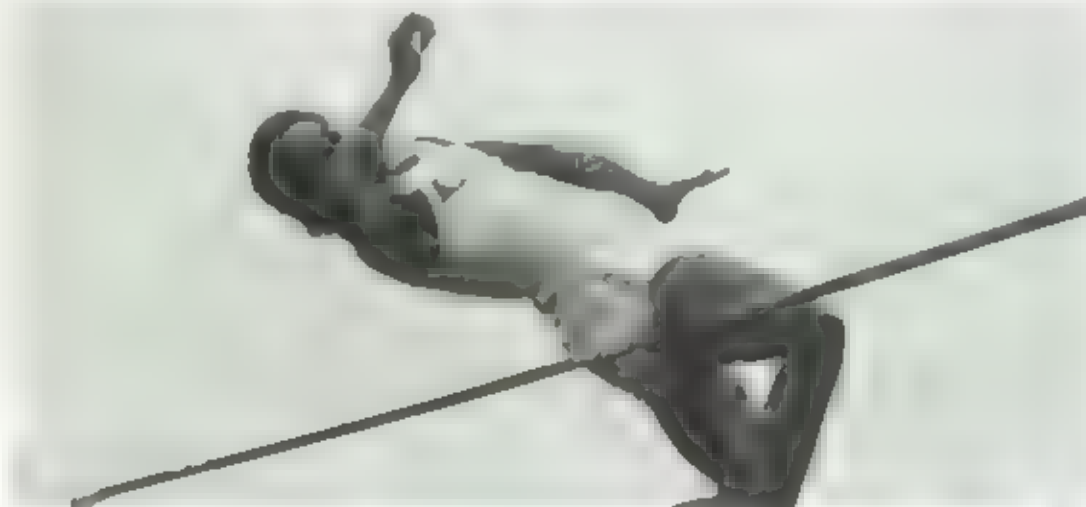

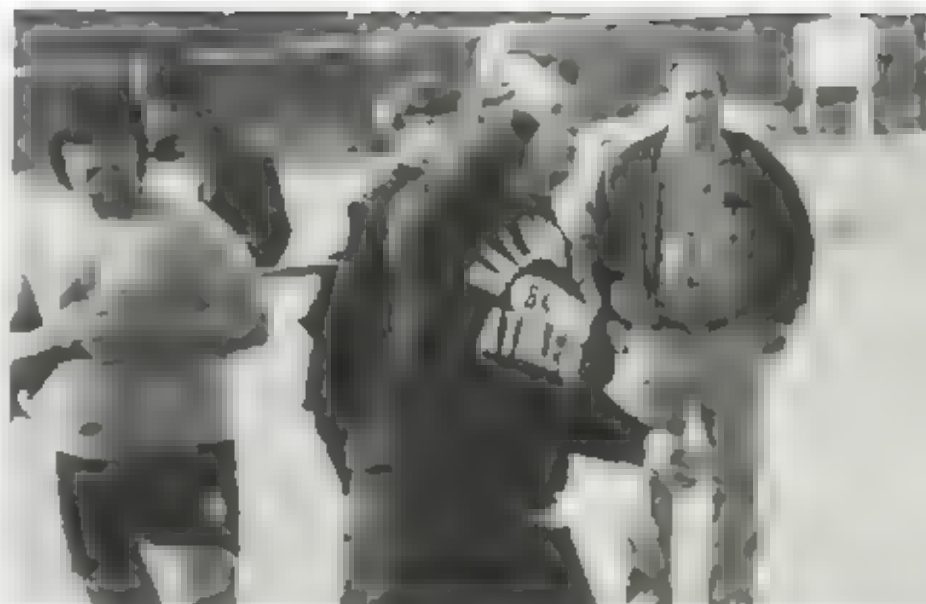

With strong performances by the track team members, such as distance runner Jose Mellin, sprinter and long jumper Greg Anderson, shotput specialist Albert Johnson, and hurdler Dennis Dunlap for the boys, and distance runner Melissa Culpepper, sprinter Laurie Allen, high jumper Colleen Myers, and shotput Rachel McBride, the Braves became a success on the track and field.

Track is largely an individual effort, with the exception of the relays, and in-

dividuals stand or fall depending on their own effort. However, there is a factor of teamwork involved with track and field. That teamwork is in the form of support on and off the track. With the rest of the team cheering them on, an individual can be encouraged to make that extra effort to win.

Track and field reached a new peak of awareness during the 1984 Olympics in Los Angeles. Hopefully that awareness, and the enthusiasm that accompanies it, will encourage more Braves to participate in the area of track and field.

If you don't believe that track can be a worthwhile sport, ask Ron Brown, a Brave we can all be proud of.

# The Thrill of Victory . . .

**T**he Varsity Field Hockey Team had an excellent season. They started out slowly, but as the season progressed the girls learned to play as a team. They had a season of seven wins and five losses, with two ties.

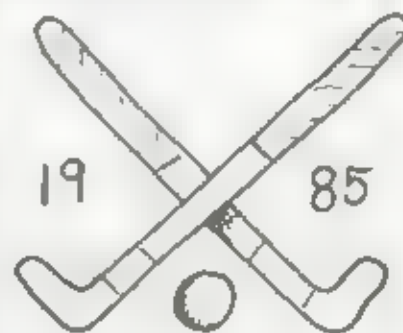

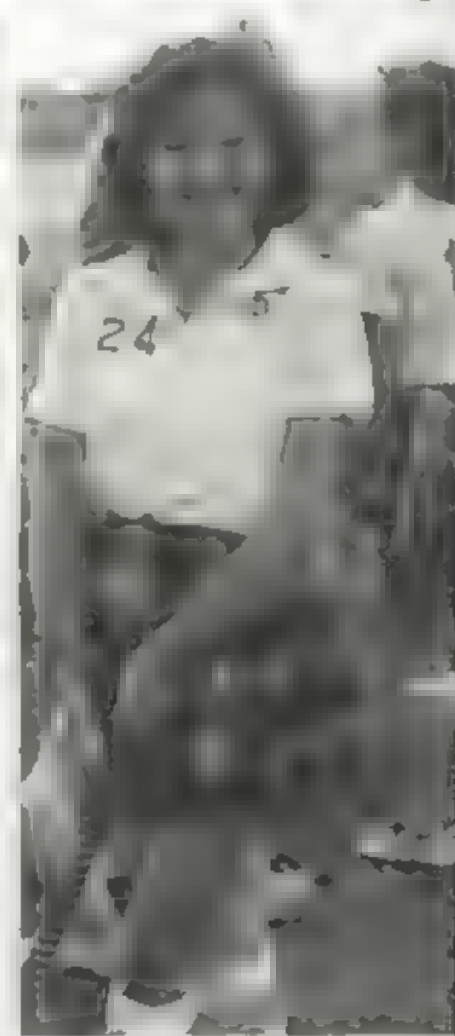

Highlights of the season included upsetting previously undefeated Colton, placing third in both of the tournaments they entered, and placing fourth in league standings.

In the Santa Ana Valley Tournament Angel Vasquez and Liz Kane were named to the All Tournament Team. Liz was also named Most Valuable player for the

tournament.

In the playoffs the Braves defeated La Quinta, Huntington Beach, and Colton to reach the finals against Santiago High School at Charter Oak. Regulation time ended with the game tied forcing a ten minute overtime. At the end of the overtime the game was still tied, forcing sudden death penalty strokes. This proved to be the downfall of the Braves as they lost the match in the second round of penalty strokes.

The hockey team has done the best of any team in the Braves' history, being the first to advance the first round of the playoffs.

# A Determined Team

**T**he girls of the 1985 Junior Varsity Field Hockey team were determined to make a name for themselves. Even though they got off to a rough start, they continued to work hard.

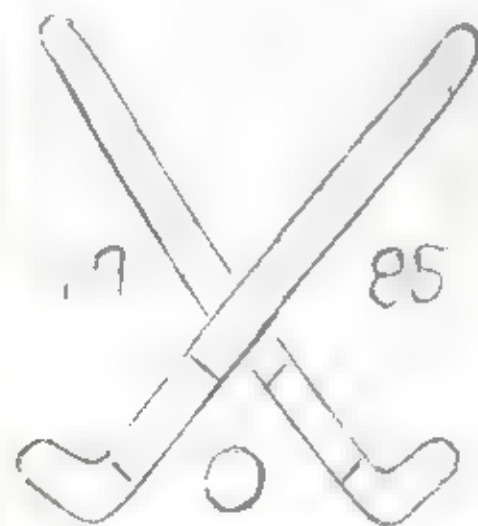

The Junior Varsity squad had a unique experience as our foreign exchange student, Pia Kaven was a member of the team. When

asked how she felt about field hockey Pia exclaimed, "I really enjoy it. I never knew what it was until I got here. I want to teach it to my friends when I get home this summer."

Even though Pia won't be a part of next year's team, we will be seeing a determined bunch of girls ready to win it all

# Working Hard

The 1984-85 Braves Varsity and Junior Varsity Wrestling teams came alive this year. They had a goal of winning accomplishments, and they tried their best to reach those goals. They began their annual season with new coaches, Coach Cote, Coach Robles, and Coach Moody, and only a few returning players. As a group the wrestlers worked hard and individually their ambitious efforts aimed toward higher achievements. In addition to the long practices held during the Christmas holidays, the coaches and team members worked hard each day after school preparing for a successful season.

To spectators wrestling may seem to be an every day sport for entertainment, but to the wrestlers and coaches it is quite tiring. In other sports the team members may hope that they will catch or hit the ball, or another player will defend it. In wrestling each wrestler knows that only he himself is out on that mat with one goal, to pin his opponent before his opponent pins him.

The wrestlers worked really well as a team and helped each other reach the goals they had set. The wrestling team gained more than ever before, picking up the nickname, "The Determinators."

Some of the wrestlers evaluated their team members and the following were their considerations:

Honorable, long-lasting seniors: Arnulfo Valdez and Juan Gonzalez.

The significant, old juniors: James Carasco, Ricky Lozano, Gus Montalvo, and Chris Silvas.

The newest, most ambitious wrestler: Efren Gonzalez.

The newest, most improved wrestler: Richard Hernandez.

Without any of the coaches or wrestlers, there would not have been this team of ambitious and endeavored people. They were full of determination and high expectations. Even though they encountered some tough competitions they never gave up. Working hard sure pays off!

# It's Over, but It's Not the End!

At the beginning of each year, students do not realize that a time to depart from friends will soon come.

They are busy relating their experiences and good times from the previous summer, discussing their new classes and teachers, and settling in to a new school year.

Then it happens. Summer has almost come again, and for many this is a joyous time. For the seniors however, it is a time of

sadness, a time of reflection of good times gone by; times that will never happen again.

For four years Baldwin Park High was the center of life, socially, for many students. Now reality will set in, and the real world must be faced. Some will have an easy transition, some will not. But for all life holds special rewards, and memories, of those days that are gone forever except for the memories.

# School's Out!

**W**e've finally reached the day to leave Baldwin Park High School. Some will just be on vacation for the summer, while others will be leaving for good. For the seniors this will be a new beginning.

The time to decide the future has now come for the class of '85. Will it be a college, a career, the military, or just bumming around for

awhile? Hopefully, the decisions that will be made will be the right ones, decisions based on knowledge as well as personal desires.

The Seniors from the class of 1985 will never forget the memories of Baldwin Park High School. The many friends, teachers, good and bad times will be with them forever. Good luck CLASS of '85!

# Your Own Style

**D**oesn't it seem funny that the old seems to catch up with the new? There we were in the midst of the 80's and we all jumped back into our mini skirts, bobby socks, and dad's oversized sweaters. Wait! It wasn't the 50's. It was 1985, and you were either a preppy, a rocker, a punker, or maybe just a conservative type. In either case you dressed in your own style.

Some students threw on their hats, gloves, and colored pumps and became sophisticated. Others wrap-

ped themselves in headbands, spikes, chains, and leather.

Not only were clothes different, so were the hairstyles. Many wore their hair short, while others wore theirs bleached, or they teased it and added pompadours. We even saw the flat top come back.

Whether it was a sudden change, or a planned idea, it was done. Being different seemed to be the fashion. All fashions change; who knows what next year will bring?

# Taken for Granted?

Is there anything that's taken more for granted than a school year? For many students the school year is something that will always be there. Students don't realize that it does go by until, suddenly, it's gone. Events which were a part of the everyday life will now only exist in the back of the mind

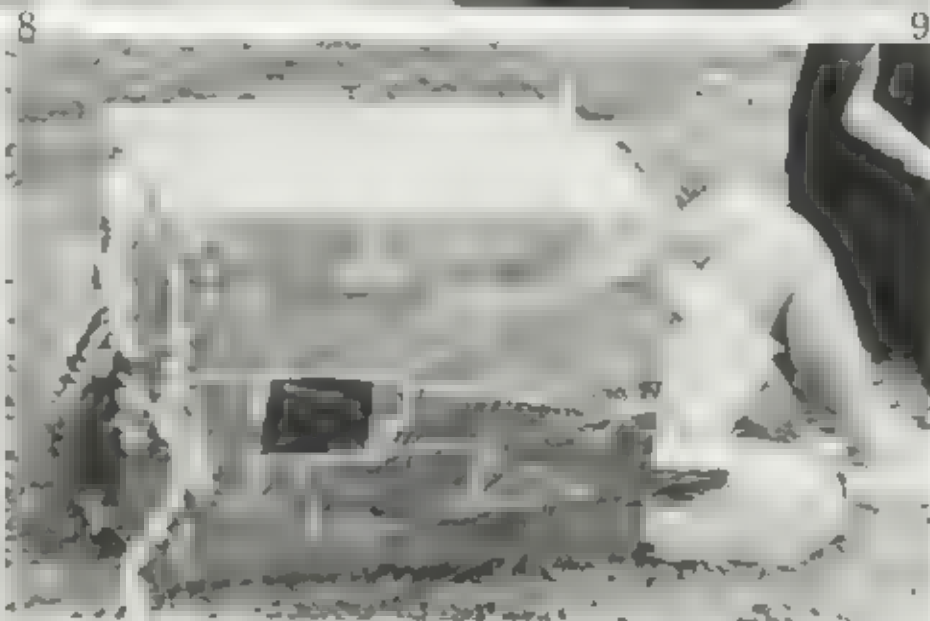

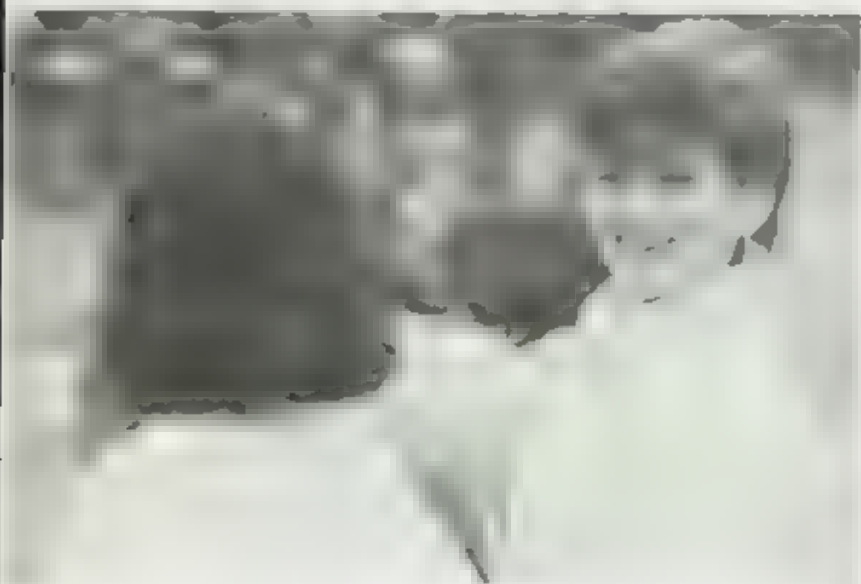

Such things as football and basketball games which happen every year aren't given a second thought. The fact that the football team almost won the CIF finals will soon be forgotten except for the team members and coaches. How many knew that the basketball team went further than ever

before in CIF, or that the field hockey team almost won the championship match?

After it's all over then students notice, when they aren't students anymore. They begin to cherish those special moments that are now precious memories

Too many times we take an interest in something after it's over and too late to become involved. If only we knew how to motivate interest before it was too late. For the class of '85 it's too late to become involved for those who chose not to do so. For those who still have some time left, get involved before those special moments are only memories.

# The End

The end is here I hate  
to say,  
And now we all must  
go away.  
The only thing that we  
have in mind  
Are the memories that  
we left behind.  
The year was great as  
we all know,  
But now we all must  
get up and go.  
If only we could have  
slowed time down,  
Our school years would  
still be around
